PACIFIC GOLD PEACH

Buckley Nursery Co.

HOME OF PACIFIC GOLD PEACH

BUCKLEY, WASHINGTON

CHOICE PERENNIAL PLANTS

Varieties marked (R) are dwarf, suitable for use in rockeries. Perennials increase in popularity yearly because they survive severe winter weather and give a profusion of blossom year after year with a minimum of attention. By careful selection of varieties,

it is possible to carry out many charming color combinations giving a wealth of bloom from early spring until frost.

Strong field grown plants 35c each (except where noted), 3 for \$1.00, 12 for \$3.50. (Postpaid anywhere in Western Washington.)

DICENTRA, BLEEDING HEART

PRIMROSES

R—**Alyssum** (Basket of Gold) **Saxatile Compactum**. Yellow to 12 inches.

Sulphureum. Light sulphur yellow, to 15 inches.

Aquilegia (Columbine) **Blue, Pink, White** (Snow Queen), and **Mrs. Scott Elliotts Hybrids**, long spurred mixture.

R—**Arabis** (Snow on the Mountain) **Alpina Snowcap**. Early single, very compact.

Double White. Blossoms later.

R—**Armeria** (Thrift or Sea Pink) **Maritima**. Small cushion of grass-like foliage with rose pink flowers. 6 in.

Astilbe (Spirea). Each 50c, \$5.00 per 12.

Fanal. Reddish bronze foliage, bright red flower.

Gloria. Light rose.

Koster. Light red.

Peach Blossom.

R—**Aubrieta**. Large flowered hybrids. 6 in.

Campanula (Canterbury Bell). **Medium Single**. 36 inches. Dark blue, lilac, rose or white.

Carnation Grenadin.

Golden Sun. Golden yellow.

King of the Blacks. Darkest red.

Red or Crimson.

Triumph Rose.

White Gold. Soft yellow (NEW).

White.

Coreopsis. **Sunburst**. Double yellow.

Daisy, Shasta. Each 50c, \$5.00 per 12.

Esther Read. Double white, crested center.

Delphinium. Each 50c, \$5.00 per 12.

Pacific Giant Hybrids. The very finest strain. Some flowers over 3 in. in diameter on tall spikes. Mixed, white, lavender, light and dark blue.

Pacific Giant White (tagged as to color).

Dianthus Barbatus (Sweet William). Large flowered, mixed.

Dicentra Spectabilis (Old Fashioned Bleeding Heart). Each 75c.

Gaillardia. **Burgundy**. Wine red, self color. 30 in.

Dazzler. Large flowers, yellow, maroon center. 36 in.

Torchlight. Yellow, maroon center. 24 in.

Geranium. **Grandiflorum**. Large blue flowers.

GEUM

Lady Stratheden. Golden yellow. 24 in.

Mrs. Bradshaw. Large double red. 24 in.

Gypsophila (Baby Breath)

Paniculata. Small single white flowers in great profusion. Useful for cutting.

Bristol Fairy. Large double flowers, grafted plants. 75c each.

R—**Helianthemum** (Rock Rose). Apricot, Dark Red, Rose Pink, Tomato Red, Yellow and White. NEW—Double Red, or Double Yellow. 50c each.

Hemerocallis (Day Lily). Tall. Burnt orange.

R—**Heuchera** (Coral Bells). Dark red.

Hollyhock Chater's Double. White, deep salmon red, yellow, scarlet, Newport pink, and deep rose.

R—**Hypericum** (St. John's Wort) **Polyphyllum**. Tiny prostrate foliage, large yellow flowers.

R—**Iberis** (Perennial Candytuft) **Sempervirens**. White.

Gibraltica. Lavender.

Lupin, Russell Strain. Large flowered, mixed colors.

Lychnis Viscaria Splendens Fl. Pl. Deep rose, large double flowers. 18 in.

R—**Nepeta**. Mussine Lavender. 12 in.

Primula Polyanthus. Extremely large flowers in choice mixed colors.

Springtime. Large flowered lavender, compact.

Wanda. Deep violet, compact.

R—**Polemonium** (Jacob's Ladder). **Reptans**. Light blue. 12 in.

R—**Pulmonaria** (Lungwort). 8-12 in. **Angustifolia**. Dark blue, green foliage.

PHLOX

R—**Amoena**. Bright pink. 8 in.

Decussata. 50c each, \$5.00 per 12.

Hauptman Koehl. Deep red.

Champ. Elysses. Rich purple.

Mrs. Jenkins. Very fine white.

Prime Minister. White, red eye.

Millie von Hoboken. Light pink, dark eye.

Salmon Glow. Deep salmon.

San Antonio. Plum red.

Suffruticosa. 50c each, \$5.00 per 12.

Miss Lingard. Glossy green leaves, waxy white flowers growing along the spike; best cut flower.

R—**Subulata** (Creeping Phlox).

Alba. White.

Atropurpurea. Dark red.

Pyrethrum (Painted Daisy). Lovely large single and double flowers, mixed.

Double Rose Pink. 50c each, \$5.00 per 12.

Saxifraga Decipiens. Mossy green foliage, pink flowers.

R—**Statice** (Latifolia) (Blue Baby Breath). Broad flat leaves, tiny blue flowers.

Tritoma Pfitzerii (Red Hot Poker). Orange and yellow flowers. 36 in.

Trollius (Globe Flower). **Ledebouri.** Single orange. 36 in.

R—**Veronica. Rupestris.** Bright blue, trailing (May). 10 in.

PEONIES

Peonies are easily grown almost anywhere in ordinary garden soil. Their springtime blossom should enliven every garden. A deep profusion of bloom is always welcome and they are probably the most consistent flowers of wide acquaintance to beautify the garden. There is room at every home for at least one of these beautiful flowers. Each \$1.00, 6 for \$5.00.

Albert Crouse. Fragrant, large, soft rose pink. An exceptionally fine late flowering variety.

Couronne d'Or. Semi-rose type; late mid-season. Very full, imbricated ball shaped bloom. Solid and compactly built from edge to center. Color snow-white, reflecting golden-yellow stamens that show through the petals when looking at the flowers from the side. Delicate carmine penciling on edges of a few central petals.

Edulis Superba. A very early, bright, clear rose pink peony with silvery reflex that blooms about Decoration Day. One of the most valuable of the fragrant sorts.

Felix Crousse. Rose type; late mid-season. Its large, globular flowers, solid and compactly built from edge to center, are a rich brilliant dazzling ruby red.

Festiva Maxima. This is without doubt the finest medium-sized white peony in existence. The enormous flowers are snowy-white with flecks of purple on some of the center petals.

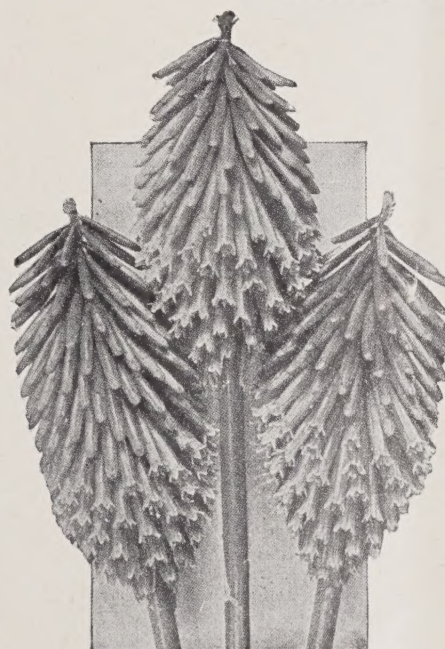

Monsieur Jules Elie. Mid-season, bomb type. This is the king of all peonies. The immense flowers are glossy lilac pink shading to deeper rose at the base. The entire flower is overlaid with shimmering silver sheen that makes it truly a wonderful peony.

PAMPAS GRASS

Probably no other ornamental has the beauty and grace of this fine plant. The long, graceful, pendulous blades or reeds of foliage are attractive both winter and summer. The tall spikes of pure white plumes are especially attractive in the fall months, and can be cut for ornamental use in the house during the winter months. 2-yr. plants: each \$1.00; large blooming size clumps: each \$3.50.

PHLOX

TRITOMA (Red Hot Poker)

CARNATIONS

VIOLA

One of the items that always shows well in a rockery, in a shrubby border, or most any place. Consistent blooming, always attractive.

Arkwright Ruby. Bright ruby crimson.

Chantryland. Apricot.

Catherine Sharp. Hardy blue, compact.

Enchantress. Blue-purple, long stem. Best cut flower.

Jersey Gem. Dwarf habit, free flowering, small dark blue. An old favorite.

Lutea Splendens. Chrome yellow.

Maggie Mott. Pale blue, lighter center, long stems; different.

Mosley's Perfection. Clear, golden yellow, very compact, ruffled flowers.

Pride of Victoria. Lavender, strong grower with long stems.

Purple Glory. Deep velvety purple, compact and early, one of the best.

White Gem. A white Jersey Gem.

Violets. Sweet scented early, hardy violet.

R—**Dwarf Rockery Violet.**

Red Violet.

Wallflower. Mixed colors.

CITY OF HAARLEM

SELECTED BULBS FOR SPRING BLOOM

DAFFODILS

Emperor. Deep yellow trumpet and primrose perianth. An old favorite for garden planting, though rather late. Each 15c, 3 for 40c, Doz. \$1.50.

King Alfred. A deep golden yellow flower of wonderful substance, on stiff two-foot stems. Trumpet deeply frilled and recurved at the mouth. By far the best all-yellow in its price class. The universal favorite for the cut flower trade. Produces wonderful, large, hard bulbs. Each 20c, 3 for 50c, Doz. \$1.75.

Spring Glory. Trumpet of pure yellow; perianth white and of good form. One of the best Bi-Colors for all-around planting. Each 20c, 3 for 50c, Doz. \$1.75.

NARCISSUS

Cheerfulness. The double Elvira, a very distinct and decorative variety. Erect stems, each bearing a cluster of small blooms with broad, rounded, creamy white perianth and full double center of creamy white and yellow. Cheerfulness is well named and makes friends instantly. Each 15c, 3 for 40c, Doz. \$1.50.

Diana Kasner. A pure white perianth and a large fluted yellow cup with blood red frill. Increases very rapidly, is free flowering, has fine long stems. Each 15c, 3 for 40c, Doz. \$1.50.

Silver Star. Perfect broad-petaled star-shaped perianth of pure cream-white, with finely proportioned, wide mouthed trumpet of primrose, changing to cream-white, just a shade deeper than the perianth. Produces fine large, hard bulbs, free flowering, with long stately stems. Recommended. Each 20c, 3 for 55c, Doz. \$2.00.

COTTAGE TULIPS

This class of late or May-flowering tulips comprises a miscellaneous catch-all group of old-fashioned tulips that have been grown for generations in the cottage gardens of England and Europe. They have been much improved in recent years, through selection and hybridization, and are now rivaling the Darwins in popularity. They are tall growing and their petals are more open than the Darwins. In forcing, care must be taken to bring them on slowly. Prices are for No. 1 Top Size.

Advance. 32". To obtain a glimpse of what the tulip future holds, plant a few of these. Stems better than the best Darwin; petals longer than the largest Darwin, earlier than the earliest Darwin. Altogether, bolder and better than anything in either Darwin, Breeder or Cottage class. Red, with a "come hither" flush of deepest rose-orange. Doz. \$1.40; 100, \$9.75.

Dido. 28". Outside of petals are salmon-yellow suffused with soft orange; inside bright orange. An outstanding tulip in any class; fragrant. Doz. \$1.40; 100, \$9.75.

Henri Correvon. 26". Clear geranium red, large pure white center, ivory stamen. Doz. \$1.40; 100, \$9.75.

Inglescombe Yellow. 24". Fine large globe-shaped flower of bright canary yellow. Doz. \$1.35; 100, \$9.50.

Mrs. John T. Scheepers. 26". Long petaled flower of stunning golden yellow, ivory pollen. Very tall and robust with heavy sturdy stems. The blooms are enormous, petals of unsurpassed substance. A real giant and probably the finest in this color. Doz. \$1.50; 100, \$10.50.

DARWIN TULIPS

No. 1 TOP SIZE TULIPS

The most popular division of the Tulip family, both for garden and as cut flowers. Their chief characteristic is the perfect cup-shape of the flower, tall stems and bright colors.

Bartigon. 25". Fiery red, white base. Doz. \$1.35; 100, \$9.50.

City of Haarlem. 28". Immense vermilion scarlet, blue-black base, edged in white. Doz. \$1.50; 100, \$10.50.

Clara Butt. 22". Clear pure pink. The most popular pink Darwin for bedding and cutting. Doz. \$1.40; 100, \$9.75.

Wm. Copeland. 24". Bright violet. Very early. Doz. \$1.35; 100, \$9.50.

Yellow Giant. 32". Bright golden yellow, large and tall, blackish base, dark pollen. Doz. \$1.40; 100, \$9.75.

Zwanenburg. 32". Pure white when in full bloom with black anthers. Doz. \$1.40; 100, \$9.75.

IMPORTED HYACINTHS

City of Haarlem. Large trusses of pale yellow.

Gertrude. Compact truss of rosy pink.

King of the Blues. Dark blue, compact truss.

La Victoire. Deep carmine-red.

L'Innocence. Large truss of pure white. Each 30c, 3 for 85c, 12 for \$3.00.

ENGLISH IRIS

(BULBOUS)

If you have never grown this beautiful Iris, try a few bulbs; you will be delighted. They thrive in any ordinary garden soil, multiply very rapidly and are unexcelled for cut flowers. This species reached Netherlands through England, which accounts for its name. Flowers in late June and early July. Needs some protection in severe climates.

Not recommended for Southern or dry, hot areas.

Plant 6 inches deep.

Cattleya. The color of Cattleya orchids. Doz. \$1.50; 100, \$10.50.

King of the Blues. Deep blue. Doz. \$1.50; 100, \$10.50.

The Giant. Deep purple-blue. Large flower. Doz. \$1.75; 100, \$12.25.

RETICULATA IRIS

This violet-scented dwarf Iris is a gem for the rock garden. Blooms very early, may be forced into bloom by Christmas. Should have a mulch of leaves in severe climates.

Iris Reticulata Species. Brilliant deep violet with a golden yellow blotch. 3 for 55c; Doz. \$2.00; 100, \$15.00.

I. Reticulata, J. S. Dijt. Like the above but reddish purple, blooming earlier, very rare. 3 for 70c; Doz. \$2.50; 100, \$17.50.

TINGITANA HYBRIDS

This group is a result of crosses between Iris Tingitana of northern Africa and the Dutch Iris. They bloom earlier, are semi-hardy, and unexcelled for forcing.

(Not recommended for areas where temperatures goes below 10 degrees above zero.)

The First. 24". Clear sky blue; very large. Doz. \$1.00; 100, \$7.00.

Wedgwood. 24". Standards, medium blue; falls, lighter blue. Doz. 90c; 100, \$6.50.

CROCUS—Spring Flowering

These are among the loveliest of all spring-flowering plants. They need rather a sunny place in the garden to make the flowers open up fully and look their best.

This is the Giant Flowering Strain, and only the finest variety in each color is listed.

All crocus may be planted 3 or 4 inches deep.

Golden Yellow. Fine bright yellow. Doz. 45c; 100, \$3.00.

Kathleen Parlow. The finest white. Doz. 45c; 100, \$3.00.

Purplea Grandiflora. Deep glossy purple, extra large flowers. Doz. 45c; 100, \$3.00.

Queen of the Blues. Deep lilac blue, very large. Doz. 45c; 100, \$3.00.

Striped Beauty. Purple lines on white. Doz. 45c; 100, \$3.00.

Mixed Crocus. A mixture of the above colors. Doz. 40c; 100, \$2.75.

FLOWERING SHRUBS

BARBERRY
THUNBERGI

See pages 13 to 16
for Evergreen
Flowering Shrubs.

ALMOND

Pink Flowering. One of the most popular spring flowering shrubs. A vigorous growing beautiful shrub completely covered with blossoms in May. 18-24 in., \$1.00; 2-3 ft., \$1.25.

Althea (Rose of Sharon) (Shrub Hibiscus). An excellent shrub for summer blossom, with a profusion of blossoms in July, August and September. The flowers are large, showy, and vari-colored. White, pink, rose, and lavender or purple. 2-3 ft., \$1.25; 3-4 ft., \$1.50.

Azalea. See page 13.

BARBERRY (Red Leafed)

Ideal shrub for specimen planting or for mass planting, forming an impenetrable barrier to prevent dogs from trespassing on garden. 15-18 in., \$1.00; 12 for \$8.50.

Thunbergi (Green Leafed). Small brilliant green leaves with yellow flowers in summer. Bright red berries hanging on branches until spring. 15-18 in., 85c; 12 for \$6.50.

BEAUTY BUSH (Kolkwitzia)

A graceful shrub, attractive at all times. Masses of delicate flowers in spring. 2-3 ft., \$1.50; 3-4 ft., \$1.75.

BUDDLEIA (Butterfly Bush)

An attractive shrub of spreading habit of growth; the branches tipped with long spikes of charming perfumed blossoms. Particularly well adapted to flowering hedge screens. Each, No. 1, \$1.35. Assortment of 3 different colors, \$3.50.

Ile de France. Large flowers of rich, reddish purple, borne in long panicles.

Dubonnet. A new dark wine. Large spikes and individual flowers of good size.

Magnifica. Flowers of large size, light purple.

Charming. Long sprays covered with lovely lavender-pink blossoms.

DEUTZIA

One of the most satisfactory shrubs to plant for late spring blossom, either singly or in masses. Flowers in profusion.

Gracilis. A dwarf type, slender and of graceful habit. Large clusters of white flowers. 12-18 in., \$1.15; 18-24 in., \$1.35.

Lemoine. Broad, round bush, bearing large clusters of pure white flowers. Very hardy. 18-24 in., \$1.15; 2-3 ft., \$1.35.

Pride of Rochester. Very free flowering, large blossoms, of the purest white. 2-3 ft., \$1.25; 3-4 ft., \$1.50.

Scabra Plena. Taller growing than other sorts with beautiful double rose blossoms. Attractive and thrifty. 18-24 in., \$1.15; 2-3 ft., \$1.35.

Dogwood. See page 11.

HYDRANGEAS

Blue (Otaksa). Vivid blue blossoms in late summer and early fall. Very showy. Can be used in foundation planting or in screens. 12-15 in., \$1.75; 15-18 in., \$2.15.

Hills of Snow (Arborescens Grandiflora). Beautiful large, snow white blossoms, with lovely dark green foliage. Very hardy. No. 1, \$1.25.

PeeGee (H. Paniculata Grandiflora). Long, pointed panicles of pinkish-white flowers in August and September. Can easily be trained to tree form, and makes a very desirable lawn ornament. 2-3 ft., \$1.50; 3-4 ft., \$2.50. Specially selected specimens trained to tree shape, 4-5 ft., \$3.50 each.

FORSYTHIA (Golden Bell)

A justly popular beautiful shrub of medium size. Flowers are bright yellow, appearing before the leaves in early spring. Foliage a rich dark green. 2-3 ft., \$1.15; 3-4 ft., \$1.35.

HONEYSUCKLE

(BUSH TYPES)

A hardy shrub, easy to cultivate and care for. Bush forms lend themselves well to mass planting or for use mixed with other shrubs for screening. Each, \$1.25; assortment of 3, \$3.25.

Fragrantissima. A beautiful almost evergreen shrub. Very fragrant, with beautiful creamy-white flowers.

Morrowi. A spreading type with fragrant white blossoms followed by brilliant red fruit.

Tartarica Rosea. A hardy vigorous grower with pink bloom from April to late May, followed by showy orange fruit.

Tartarica Rubra. Similar to Rosea but with red blossom, and brilliant red fruit.

DEUTZIA

FORSYTHIA VIRIDISSIMA (Golden Bell)

CLEMATIS

VANHOUTTE SPIRAEA

LILACS

Common Purple. The well known lavender-purple variety, long a standard in all gardens. Beautiful, fragrant, and hardy. 2-3 ft., \$1.50; 3-4 ft., \$1.75.

Common White. Too well known to need description. Semi-slender panicles of white, highly fragrant flowers in early spring. Same price as Common Purple.

GRAFTED FRENCH TYPE LILACS

18-24 in., \$1.50; 2-3 ft., \$2.00; 3-4 ft., \$3.00.

Persian Purple. Single, deep purple, slender branches.

Belle de Nancy. Double, pinkish lavender.

Charles Joly. Double, dark reddish purple.

Edith Cavell. Double milk white.

Ludwig Spaeth. Single dark reddish-purple.

Ville de Troyas. Single, dark wine red.

President Grevy. Double light blue.

President Poincare. Double reddish lavender.

FRENCH LILACS

KERRIA

Kerria Japonica. Double Kerria grows vigorously and attains a height of 4 to 5 feet. Beautiful, showy yellow blossoms in early spring. Makes excellent ground or terrace cover. 2-3 ft., \$1.50 each.

MAGNOLIAS

No other shrub has the universal appeal, nor the attractiveness of the Magnolia. Large, showy blossoms usually appearing before the leaves completely covering the branches, attract the eye of all and make the Magnolia truly the centerpiece of every garden. 15-18 in., \$3.50; 18-24 in., \$4.50; 24-30 in., \$6.50; 3-4 ft., \$9.00; 4-5 ft., \$12.50.

Alexandrina. Showy, large blossoms, tinted pinkish white on inside with rosy purple outer lining.

Conspicua. Tulip shaped blossoms, pinkish white.

Soulangeana Lennei. Rosy purple outside, soft white inside.

Soulangeana Nigra. Upright petals, tulip shaped, deep purple shading to pinkish orchid inside.

Soulangeana Rosea. Very profuse bloomer, white blossoms with tinge of soft rose at base.

MOCK ORANGE

Philadelphus Virginalis. Double. Large clusters of pure white, double blossoms are borne over a long season. Very fragrant, and a handsome addition to any collection of flowering plants. 2-3 ft., \$1.25; 3-4 ft., \$1.50.

PEARL BUSH (Exochorda)

Attractive snowy white blossoms in long racemes, with deep green, dark foliage make this hardy shrub a good choice for planting in a sunny place. 2-3 ft., \$1.50; 3-4 ft., \$2.00.

QUINCE (Flowering Japanese)

A low-growing, bushy shrub bearing brilliantly colored blossoms in early spring. Bright red and scarlet. Shiny bronze-green foliage all summer. 2-3 ft., \$1.50; 3-4 ft., \$2.00.

SNOWBALL (Viburnum)

Evergreen (Burkwoodi). See page 16.

Fragrant (Carlesi). Pure white, delightfully sweet scented. Flowers faintly tinted rose when first opening, then turning to a beautiful ivory. Very free bloomer. Slow-growing. 15-18 in., \$2.50; 18-24 in., \$3.50.

Japanese (Plicatum). Ivory-white flowers, appearing in early June, with attractive green foliage. Very showy. 2-3 ft., \$1.75; 3-4 ft., \$2.50.

Old Fashioned (American Snowball) (Opulus Sterile). The old favorite, with globular white flowers, dark green leaves. Very hardy. 2-3 ft., \$1.50; 3-4 ft., \$2.25.

Opulus (High Bush Cranberry). Flat white blossoms from July to December, after which its beautiful blossoms are replaced by immense clusters of 1/2-inch brilliant red fruits. 2-3 ft., \$1.50; 3-4 ft., \$2.00.

SPIRAEA

A. Waterer. A late blooming variety, dwarf growing, with showy flat clusters of bright red flowers nearly all summer, especially showy in late summer when other flowers are scarce. 15-18 in., \$1.00; 24-30 in., \$1.50.

Prunifolia (Bridalwreath). Clusters of small, double white flowers, light green foliage with rich autumn colors late in season. 2-3 ft., \$1.50; 3-4 ft., \$2.00.

Thunbergi. The first of the spiraeas to blossom in early spring. Slender branches clothed with feathery bright green foliage. Flowers of the purest white. Very showy. 2-3 ft., \$1.25; 3-4 ft., \$1.75.

Vanhouttei. One of the most popular of all spiraeas. Gracefully arching branches are heaped with white flowers in early spring. Very hardy and thrifty even under poor conditions. 2-3 ft., \$1.00; 3-4 ft., \$1.50.

TAMARIX

Slender, drooping shoots with delicate feathery foliage; great billowy masses of pink flowers in early spring, nearly covering the branches. One of the showiest of all spring blooming shrubs. 2-3 ft., \$1.25; 3-4 ft., \$1.75.

WEIGELA EVA RATHKE (Red Weigela)

WEIGELA

A favorite flowering shrub, neat in habit of growth with pleasing green foliage and colorful tubular flowers in summer. Excellent for cutting for summer bouquets.

Pink (Rosea). Large light pink blossoms, often blooming for 10 weeks in summer, followed by a few blooms in fall. 2-3 ft., \$1.25; 3-4 ft., \$1.75.

Red (Eva Rathke). A new free-flowering variety with carmine-red flowers, very showy and hardy, somewhat more dwarf in growth than Rosea. 2-3 ft., \$1.50; 3-4 ft., \$2.00.

Variegated (Rosea variegated). Large light pink blossoms, free blooming, with attractive variegated leaves, doubling the showiness of this beautiful shrub. 2-3 ft., \$1.50; 3-4 ft., \$2.00.

CLIMBING VINES

WISTERIA

CLEMATIS (Large Flowered)

Profuse, showy blossoms and rich, dense foliage. These are probably the most desirable vine for the Northwest. Prefer sunny location for the most blossom, but will do well in partial shade. 2-yr. No. 1, \$1.50; assortment of 3 (our choice), \$3.90.

Duchess of Edinborough. Double white, very large, fragrant.

Henryi. Extremely large blossoms, ivory-white.

Jackmani. Rich purple, most popular for consistent blossoms.

Mme. Edouard Andre. Large bright red, very showy.

Montana (rubra). One of the best. Rapid in growth, vigorous, produces masses of lovely, medium size, rose-pink flowers.

Ramona. Beautiful, large, lavender blue flowers. Outstanding!

HONEYSUCKLE

Hall's, Japanese. A hardy climber bearing a profusion of fragrant white and yellow flowers. 2-yr. No. 1, \$1.00 each.

IVY

Boston. Bright green leaves turning to vivid scarlet in fall. A self-supporting creeper, clinging to wood or stone. 2-yr. No. 1, \$1.00.

English (Hedera Helix). Evergreen. Most popular of all evergreen vines for ground covers, house plants, clinging vines for walls or for training on fences as a hedge. The small leathery leaves are always neat and attractive. Ideal for shady places or for concealing unsightly objects. 2-yr., 50c; 3-yr., \$1.00.

JASMINE

Winter Jasmine (Nudiflorum). Yellow. Very fragrant, blossoms usually in February. 2-yr. \$1.50.

Summer Jasmine (Officinal). White. Very fragrant, rapid growing, with dark green foliage, and profusion of attractive white flowers. 2-yr., \$1.50.

WISTERIA

The aristocrat of flowering vines, with large, long racemes of beautiful pea-shaped flowers in various shades of purple, white, pink, blue, or violet. 2-yr. No. 1 plants, \$2.00 each.

SHADE AND ORNAMENTAL TREES

AILANTHUS (Tree of Heaven)

A very rapid grower of tropical appearance. Large plumes of white bloom are borne high in the crown of the tree in early fall. 5-6 ft., \$2.00; 6-8 ft., \$2.50.

BEECH

Copper (*Fagus sylvatica purpurea*)—One of the finest of specimen trees, very slow growing, attractive reddish purple leaves until late fall, branches long, semi-drooping. 5-6 ft., \$5.50 each.

WHITE BIRCH

BIRCH

Cutleaf, Weeping. Tall, slender, yet vigorous in growth, graceful drooping branches with delicately cut foliage. The white bark of trunk and limbs make it a tree of rare beauty summer and winter. Very popular for single specimen or group planting. 5-6 ft., \$2.50; 6-7 ft., \$3.00; 7-8 ft., \$3.50; 8-9 ft., \$4.00; 10-12 ft., \$6.00.

European (White). Attractive white bark, good foliage and shape make this a very desirable tree for street, lawn, or landscape effect. 5-6 ft., \$1.75; 6-8 ft., \$2.25; 8-10 ft., \$3.00.

Young's Weeping Birch (True Weeping Birch). Slow growing, with top of trunk weeping almost to ground, long pliable, graceful branches flowing downward. Truly, one of the most beautiful of all weeping trees. Very slow growing. Ideal for specimen planting. 5-6 ft., each \$7.50.

BLACK WALNUT

Although properly a nut bearing tree it makes such a handsome shade tree that it would be a shame not to list it here. Medium in growth, hardy, thriving in most any kind of soil. It makes a large, handsome tree, with, of course, the additional benefit of bearing well. 4-6 ft., \$1.75; 6-8 ft., \$2.50; 8-10 ft., \$3.50; 10-12 ft., \$4.50.

BOX ELDER

One of the fastest growing of all shade trees. Rather handsome green leaves, makes a good yard tree. 5-6 ft., \$1.00; 6-8 ft., \$1.50.

Box Elder Variegated (Silver). Very showy, slow growing, one of the handsomest of all shade trees. Grafted trees. Creamy white foliage mottled with rich green. 3-4 ft., \$1.75; 6-8 ft., \$3.15.

BUTTERNUT

A nut tree, yet a really good shade tree, slow growing, majestic in appearance, smooth bark, very hardy, will grow in almost any kind of soil. Something different both in appearance and in production. Nuts are large, sweet and produced in abundance. 6-8 ft., \$2.50; 8-10 ft., \$3.00; 10-12 ft., \$4.50.

CATALPA

Speciosa (Western Catalpa). A rapid growing tree, very large leaves, a nice clean bark, and with beautiful showy white flowers in early spring. Very fragrant during blossom period. 5-6 ft., \$1.75; 6-8 ft., \$2.50; 8-10 ft., \$3.25; 10-12 ft., \$4.00.

FLOWERING CHERRY

Kwanzan. A very beautiful, small growing tree. Covered in early spring with large double flowers of clear pink. An attractive shade tree during summer. 4-5 ft., \$2.00; 5-6 ft., \$2.50; 3-yr., \$3.50.

Mt. Fuji (Snow Queen). Large double snow-white flowers in drooping clusters, foliage deep green, with deeply notched, graceful drooping leaves. 4-5 ft., \$2.00; 5-6 ft., \$2.50.

Weeping, Subhirtella. Long, graceful weeping branches covered their entire length with beautiful pink blossoms. Blossoms small but in such profusion that they cover branches entirely. No. 1, each \$4.35.

Weeping, Serrulata. Long, arching branches, more upright in appearance than Subhirtella, and slower in growth. Branches gradually arching downward. Blossoms appear a little later in season than other sorts, in clusters of large very double blooms of rich pink. New leaves appear just as petals commence to fall, with new leaves showing a lovely bronze coloring gradually turning to a deep rich green as tree assumes its full foliage. No. 1, each, \$4.35.

FLOWERING CRABAPPLE

Bechtel's. One of the finest double, bright pink, fragrant blooming types. Slow growing. 3-4 ft., \$1.50; 2-yr., 5-6 ft., \$2.50.

Floribunda. Deep pink blossoms, blooms very profusely. Clusters of small yellow apples follow blossoms, and hang on until fall. 3-4 ft., \$1.50; 2-yr., 5-6 ft., \$2.50.

Parkmani. A newer variety and one of the best. Bright, rose-red, double blossoms hang on long, slender stems. 3-4 ft., \$1.50; 2-yr., 5-6 ft., \$2.50.

Neidwetskyana. An excellent flowering crab. Brilliant red blossoms, followed by bright scarlet fruit. Very ornamental and showy. 3-4 ft., \$1.50; 2-yr., 5-6 ft., \$2.50.

Scheideckeri. Another choice flowering crab. Small growing tree, upright and vase-like with a great profusion of small, pink flowers. 3-4 ft., \$1.50; 5-6 ft., 2-yr., \$2.50.

BECHTEL'S DOUBLE FLOWERING CRAB

DOGWOOD

White Flowering. A very attractive small shade tree, quite hardy; branches are a profusion of creamy-white flowers every spring. 3-4 ft., \$2.00; 4-5 ft., \$2.50; 5-6 ft., \$3.00.

Pink Flowering. A very dwarf tree with large clusters of pink blossoms. Very showy. 18-24 in., \$2.50; 24-30 in., \$3.75; 30-36 in., \$4.50; 4-5 ft., B & B Specimens, \$6.50 each.

ELM

American. A majestic native tree of great size and wide spread. Fairly fast growing. Makes a beautiful lawn or shade tree. 6-8 ft., \$2.50; 8-10 ft., \$3.50; 10-12 ft., \$4.50.

GOLDENCHAIN (Laburnum)

A beautiful small tree with clover-shaped, gray-green leaves. Flowers are long panicles of golden yellow, fragrant blossoms in early spring. Decidedly attractive. 4-5 ft., \$2.50; 6-8 ft., \$3.50.

HAWTHORN

Paul's Scarlet. This is the beautiful, deep scarlet Hawthorn that grows to perfection in Western Washington. One of the best for parking strips, for specimen trees, or for background. 4-5 ft., \$1.75; 5-6 ft., \$2.25; 2-yr. branched, \$2.75; 2-yr. extra heavy, \$3.25; 8-10 ft., specimen, \$4.50.

HICKORY NUT

A decidedly attractive shade tree, slow growing, with interesting foliage. A clean, well shaped little tree, gradually becoming more popular in this area. 3-4 ft., \$2.00; 4-5 ft., \$3.00; 5-6 ft., \$4.00.

HORSECHESTNUT

European or White Flowering. A beautiful well-known tree, forming a round compact head with large dark green leaves, and an abundance of showy, fragrant white flowers in early spring, followed by interesting fruit in fall. An excellent specimen tree for shading the lawn, or for use as shade for pasture. 3-4 ft., \$1.00; 4-5 ft., \$1.50; 5-6 ft., \$2.00. (Note: 4 trees for the price of 3.)

Red Flowering. A splendid tree, slightly slower growing than the White Chestnut, and of similar habits, with beautiful red blooms appearing in spring shortly after the White has flowered. 3-4 ft., \$4.50; 4-5 ft., \$5.25.

LINDEN

American. The native Basswood. A strong growing tree with drooping branches. Large, attractive leaves and fragrant yellow-white blossoms. An excellent shade tree. 6-8 ft., \$3.00.

European. Smaller leaved than American varieties, slender and compact in form. Fragrant yellow bloom. Also called Basswood, or Bee tree. 5-6 ft., \$2.45; 6-8 ft., \$3.10.

LOCUST

Black. A rapid growing tree that will thrive in any soil. Flowers in long, pendulous racemes, white and fragrant. Attractive light green foliage. 4-6 ft., \$1.35; 6-8 ft., \$1.85; 3-yr., heavy, \$3.35.

Globe (Umbrella Tree). This tree has a beautiful round, globe-shaped head, budded on a straight six-foot standard. The top can be sheared each year, making this a very attractive, formal tree that can be kept small where the space is limited. Globe Locusts are planted about the capital grounds of Olympia, and have attracted widespread interest of tree lovers. 6 ft. stems. No. 1, \$4.35.

Honey. A vigorous growing tree with attractive, finely cut, feathery, green, fern-like foliage. Long thorns. 6-8 ft., \$2.50.

Idaho Pink. Attractive, fragrant pink blossoms, growth similar to Black Locusts, but slower growing, and quite compact. 5-6 ft., \$3.85; 6-8 ft., \$4.35.

MAPLE

Laceleaf (Palatum Rubrum Dissectum). This is the dwarf red maple often called Cutleaf. The leaves are finely cut, and deeply red in color. It is more dwarf than Redleaf, and adapted to rockery plantings. 12-15 in., \$4.35; 15-18 in., \$5.00.

Norway. Large-growing shade tree of rounded form. Very fast growing for a hardwood tree. Excellent for street planting where uniform trees are desired. 4-5 ft., \$1.50; 6-8 ft., \$3.00.

Redleaf. This is a slow-growing, dwarf type shrub with bright red leaves. Maximum height is seldom over 5 to 6 feet, and it provides a spot of color accent in a yard. 18-24 in., \$3.75; 24-30 in., \$4.40.

Schwedler. An improved form of Norway with a more compact head, and a reddish color on the new growth. Handsome street tree, much in demand for parks. 4-5 ft., \$1.50; 6-8 ft., \$3.50.

NORWAY
MAPLE

Sugar Maple. MAKE YOUR OWN MAPLE SYRUP! Tree is well shaped, with colorful foliage in fall. Very compact. Not as fast growing as native maples. 8-10 ft., \$3.25; 10-12 ft., \$4.50.

MAIDENHAIR (Ginkgo Biloba)

A very striking, unusual tree growing slowly 30 to 35 feet. Slender, while young, spreading with age. Foliage shaped like Maiden-hair fern, but 2 or 3 inches across. Unusual green color, turning bright yellow in autumn. Hardy and desirable. 5-6 ft., br., \$4.50.

MOUNTAIN ASH

A well shaped, symmetrical tree with soft feathery foliage and large clusters of showy red berries that hang on through the winter. 5-6 ft., \$2.15; 6-8 ft., \$2.50.

MULBERRY

Russian. Fast growing, light green foliage, edible fruit. Often planted near cherry trees to attract birds and save cherries. 5-6 ft., \$1.85; 6-8 ft., \$2.25; 8-10 ft., \$2.85.

OAK

The most attractive shade tree of all. Grows tall and stately, yet slowly and gracefully. Foliage deeply cut, thin and leathery. Very attractive all season, but especially in fall when leaves turn a rich red. 6-8 ft., \$3.50; 8-10 ft., \$5.00.

FLOWERING PEACH

One of the most beautiful of all flowering trees. The long branches bear great masses of brilliant flowers, suitable for cutting for early spring bouquets. Red, pink, or white. 4-5 ft., \$2.00; 2-yr., specimen, \$3.00.

Weeping. All of the beauty of the Flowering Peach combined with the grace and loveliness of a weeping tree, with long drooping branches covered with masses of flowers in early spring. 6 ft., No. 1, \$4.35.

FLOWERING
PEACH

PINK FLOWERING DOGWOOD

FLOWERING PLUM

Blireiana. A small tree with purple tinted foliage and double pink flowers. The first in blossom every spring, with blossoms appearing before the foliage; very showy, semi-dwarf. 3-4 ft., \$1.45; 5-6 ft., \$1.85; 8-10 ft., \$3.45.

Pissardi. Purple Leaf Plum, much used for its flowers, foliage and fruit. 4-5 ft., \$1.50; 6-8 ft., \$2.50.

Vesuvius. Deep blood-red foliage, with purple branches, the color being retained all summer to strike a note of pleasing contrast in the garden, a beautiful small tree. Attractive white blossoms in early spring, followed by tasty purple fruit. 3-4 ft., \$1.45; 5-6 ft., \$1.85.

POPLAR

Lombardy. Tall spire-like tree with a very narrow spread. Very fast growing and unexcelled for use as an accent in tree plantings or as a street tree, or for a windbreak. 3-4 ft., \$1.00; 4-5 ft., \$1.50; 5-6 ft., \$2.00.

SWEET GUM

Liquidambar Styraciflua. This is one of the finest large growing trees, attractive in all stages from a small tree to large size. Leaves resemble those of Maple with 5-pointed fingers. Makes a glorious riot of color in autumn when the foliage turns all shades of red. 4-5 ft., \$2.50; 6-8 ft., \$4.00.

SYCAMORE

(AMERICAN PLANE TREE)

A popular rapid growing tree, good specimen type, or street tree, lofty, wide spreading, dense foliage, bright green leaves, interesting seed balls in winter. 5-6 ft., \$2.25; 6-8 ft., \$2.75.

TULIP TREE

Liriodendron tulipifera. Very handsome, pyramidal tree with distinctive, interesting foliage, and light yellow flowers, resembling tulips in size and shape. Novel and hardy. 3-4 ft., \$1.50; 4-5 ft., \$2.00; 5-6 ft., \$2.50.

WILLOW, WEEPING

Golden (Niobe). Golden twigs make this a very showy tree either in summer or winter, long branches reaching clear to the ground. An excellent weeping type. 3-4 ft., \$1.40; 5-6 ft., \$2.15; 6-8 ft., \$2.50.

Green (Wisconsin). Slightly faster growing than Niobe with heavier branches; makes an excellent shade tree. 5-6 ft., \$2.15; 6-8 ft., \$2.50.

PRUNUS PISSARDI (Purple Leaf Plum)

SNOWBALL, VIBURNUM

PAUL'S DOUBLE FLOWERING THORN

EVERGREENS

ABELIA, GOUCHER

ABELIA

Eduard Goucher. A new improved abelia with more luxuriant foliage and more highly colored blossoms. More dwarf in habit than regular Abelia Grandiflora. Each, \$2.75.

Grandiflora. Larger than Eduard Goucher, with gracefully arching branches covered with small reddish leaves later turning to a deep green. Flowers pinkish white from spring to fall. 10 to 12 in., \$1.50.

ANDROMEDA

Floribunda (Lily of the Valley Bush). Evergreen shrub to 4 ft. Foliage dark green, blossoms February and March. Does well in sun or shade. 12-15 in., \$1.75; 15 to 18 in., \$2.50; 18-24 in., \$3.25.

TULIP TREE—*Liriodendron tulipifera* (See page 12)

ARAUCARIA

Araucaria Imbricata (Monkey Tree). Very slow growing, with spiny scale-like foliage. Not even a monkey would climb it! 15-18", \$7.50.

AUCUBA

Japonica. Broad, bright green, glossy leaves, well adapted for planting in the shade. Female plants bear brilliant red berries. 10 to 12 in., \$1.50; 15-18 in., \$2.50; 18-24 in., \$3.50.

Japonica Aurea (Golden Japonica, Gold Dust Plant). Similar to A. Japonica, but with broader leaves attractively flecked with golden variegations.

ANDROMEDA JAPONICA

AZALEAS

Hinodegiri. Most showy of the Kurume azaleas is this dwarf evergreen shrub. In April, the bright red blossoms completely cover the shrub. 4 to 6 in., \$1.25; 6-8 in., \$1.75; 8-10 in., \$2.25.

Mollis (Chinese Azalea). A larger growing azalea, attaining a height of 3 to 4 feet. Large clusters of flowers ranging from salmon pink to orange-flame, appearing in the spring before the leaves. 8-10 in., \$1.50; 10-12 in., \$2.00; 12-15 in., \$2.50.

Altaclarens (Chinese). Very fragrant. Large clusters of blossoms, of deep orange, appearing in early spring. Grows similar to Mollis. 10-12 in., \$2.25; 12-15 in., \$2.85.

Note: Altaclarens and Mollis are not evergreen.

BARBERRY

Darwini (Holly Leaf Barberr). Compact growing evergreen shrub to 4 ft. high. Leaves deep green and small, holly shaped. Golden, orange flowers in spring developing into pale blue berries. 12-15 in., \$1.75; 15-18 in., \$2.50.

Verruculosa. Low, dense habit. Dark green leaves, whitish underneath, assuming a bronze tone in fall. Yellow flowers borne singly, or in twos. 12-15 in., \$1.75; 15-18 in., \$2.50.

Red Barberr. See page 7.

BOXWOOD

Truetree (Sempervirens). Tall upright growth, very popular for shearing to geometric designs or for medium hedge. 12-15 in., \$1.25; 15-18 in., \$1.75. Sheared specimens, \$2.50 each.

Truedwarf (Suffruticosa). A small leafed, dark green evergreen, suitable for low hedges, and especially desirable for edgings on lawns and parking strips. 3-4 in., 45c, \$4.50 per doz.; 4-5 in., 75c, \$7.50 per doz.; 8-10 in., \$1.00, \$10.00 per doz.

CAMELLIAS

STANDARD VARIETIES

Pink Perfection (Shell pink); **Cheerful** (Double red); **Purity** (Large ivory white). 8-10 in., \$1.50; 12-15 in., \$2.50; 15-18 in., \$3.25; 18-24 in., \$4.00; 24-30 in., \$5.50; 30-36 in., heavy specimens, \$7.50.

SPECIAL VARIETIES

Hikari Gengi. Semi-double flowers of rose pink, with slight red variegations. Petals edged with white. Fragrant. 15-18 in., \$4.50; 24-30 in., \$5.95; 30-36 in., \$3.00.

Grandiflora Rosea. Enormous semi-double flowers often 8 to 10 inches across with large petals and small stiff clusters of golden stamens. Rose-pink, large, glossy green foliage. 12-15 in., \$4.00; 15-18 in., \$4.75; 18-24 in., \$5.50.

Belle Romana. Very attractive, striped apple blossom pink and white. Very profuse bloomer. 24-30 in., \$5.50; 30-36 in., \$7.50.

Elena Nobile. Dark, rich red, very perfectly shaped blossoms, somewhat later than others, holding blossoms long after all others are gone. 24-30 in., \$5.95; 30-36 in., \$8.00; 3-4 ft., \$9.45.

List of other special named varieties on request.

CEDRUS DEODARA

CEDAR

Cedrus Deodara. The most graceful of the Cedrus, and often considered the finest individual evergreen tree. Silvery blue, feathery foliage borne on long drooping branches. 24-30 in., \$3.75; 30-36 in., \$4.50; 4-5 ft., \$6.00; 10-12 ft., specimens, \$12.45.

COTONEASTER

Franchetti. One of the best of the tall varieties. Arching pendulous branches, with attractive foliage, bears pinkish white flowers and clusters of orange-red berries in fall. 15-18 in., \$1.50; 2-3 ft., \$2.75.

Horizontalis. Low spreading with graceful sprays arching out over ground and rocks, making an excellent cover for banks or for rockeries. Can be trained against a lattice to make an attractive fan. Showy red berries remain all winter. 12-15 in., \$1.50; 18-24 in., \$2.75.

Microphylla. Low spreading habit similar to Horizontalis, but with evergreen leaves, and pinkish red berries. 12-15 in., \$1.50; 18-24 in., \$2.75.

CYPRESS

(CHAMAECYPARIS) (FALSE CYPRESS)

Blue (Alumi). Pyramidal, blue-green, very symmetrical. Attractive upright branches. Excellent for planting on corners of large buildings, and for use in shrubby screens. 18-24 in., \$2.00; 2-3 ft., \$3.50; 3-4 ft., \$5.00; 5-6 ft., \$7.50.

Crippsi (C. Obtusa Crippsi). A very conspicuous, showy, golden cypress, with branches growing horizontally in two directions. Excellent for use on side of house, or under tall window. 18-24 in., \$2.50; 2-3 ft., \$4.00.

Dwarf Gold (Nana Aurea). Dwarf golden tipped, soft feathery foliage, very compact and slow growing. An ideal shrub for specimen planting on either side of steps or for under corner windows. 18-24 in., \$3.00; 24-30 in., \$4.50.

Golden Lawson (Lutea). A beautifully colored golden cypress with soft drooping foliage, branching close to ground and making a perfect pyramidal shape. 2-3 ft., \$3.50; 5-6 ft., \$7.50.

Gold Tip (C. Plumosa Aurea). Soft feathery foliage, branches are slender and pliable, giving a plume-like appearance. Very adaptable, can be sheared to any desired shape or height. 3-4 ft., \$2.50; 4-5 ft., \$3.75; 5-6 ft., \$5.00.

Green (C. Erecta Verdis). Very bright green, making a dense, compact upright growth. Excellent for screening hedge. 2-3 ft., \$3.50; 3-4 ft., \$5.00.

Japanese. This rare shrub is possibly a member of the Juniper family although it has considerable of the growing characteristics of the Cypress. Very slow growing, irregular in shape with trunk and branches growing in spirals, with clusters of the soft dark green foliage covering branches. A remarkable shrub for those who wish something out of the ordinary. Very useful for corner plantings or for specimen plantings. No shearing necessary normally. 18-24 in., \$4.00; 2-3 ft., \$5.75; 3-4 ft., \$7.50.

Lawson (Lawsoniana). Dark, green, medium type growth. Very hardy. Branches are somewhat drooping, giving soft, graceful look to foliage. Naturally well-shaped, ideal for specimen planting. 3-4 ft., \$5.00; 5-6 ft., \$7.50.

Obtusa (Hinoki Cypress). Of heavy, rich deep green, compact foliage, lustrous and exceptionally pleasing, very graceful in growth and semi-dwarf, with partially open type branches, yet oddly attractive. 2-3 ft., \$3.00; 3-4 ft., \$4.50; 5-6 ft., \$6.00.

Sulphur Plume (C. Plumosa Sulfura). Dwarf type, with soft feathery foliage, tipped with golden-yellow. Very compact, and exceptionally slow growing. Exceptionally well suited for planting on prominent corners where a slow-growing symmetrical shrub is desired. 12-15 in., \$2.50; 15-18 in., \$3.25; 18-24 in., \$4.00.

Threadleaf (C. Pisifera Filifera). Threadlike branches, long and drooping, yet dense enough to give a full, soft shape to this graceful growing evergreen. Very adaptable to many positions. Under high windows, on open corners, in inside corners, or for medium height evergreen screen. 2-3 ft., \$2.50; 3-4 ft., \$3.00; 4-5 ft., \$3.50; 5-6 ft., \$4.00.

Vezelie (Lawsoniana wisseli). Has a dark bluish green foliage, growing in twisted tufts or whorls and of upright growth. Very slow, pyramidal, one of the many beautiful forms of Lawson Cypress. Rare. An excellent tree for specimen planting. 5-6 ft., \$8.50; 6-7 ft., \$9.50.

Westerman (Lawsoniana Westermanni). Foliage pendulous and heavy, velvety golden color the year around. One of the most graceful and aristocratic of the lawsons. A rare type, medium growth with wide flat branches, excellent for planting on side of house or porch. A favorite with all who see it. 15-18 in., \$4.00; 18-24 in., \$5.50.

Wintergolden (Lawsoniana Stewarti). A somewhat slender golden tree. Foliage erect with pendulous tips toward the top of the tree. One of the most remarkable and most admired of conifers always attracting attention. Stately in habit, with green and gold foliage of most effective contrast. Hardy. 2-3 ft., \$3.50; 4-5 ft., \$7.50.

Yellow Threadleaf (C. Pisifera filifera nana aurea). Dwarf Golden Thread Cypress, growing into a compact mass of intensely golden pendulous filaments. A remarkable irregular cone shape conifer that adds a touch of cheer and brightness wherever used. Does best when not exposed to full sun. Hardy. 10-12 in., \$2.00; 15-18 in., \$3.50; 24-30 in., \$5.50.

DAPHNE

Cneoreum (Rock Daphne). Low spreading, very dwarf, slender, lance-like leaves of dark green. Verbena-like clusters of fragrant, deep pink blossoms from April until June. Ideal for rock gardens or for shrubbery border. 6-8 in., \$1.65; 8-10 in., \$2.15; 10-12 in., \$2.65.

Mezereum (February Daphne). A deciduous erect shrub growing to 4 ft. Pink, fragrant flowers crowd the stems each spring before the leaves appear and are followed by showy red berries in the fall. 15-18 in., \$2.50; 18-24 in., \$3.00.

Odora (Winter Daphne). One of the favorites among broadleaved evergreens. Attractive both in flower and foliage. Leaves are broad and glossy and the flowers, which are pearl pink, appear in clusters, highly fragrant. Blossoms in late winter and early spring. Grows to a height of 4 ft. Prefers shelter from afternoon sun. 10-12 in., \$2.00; 12-15 in., \$2.50; 18-24 in., \$3.00.

ESCALLONIA

Rosea. Grows to 4 ft. Waxy green leaves, with myriads of small, bell-shaped pink flowers; everblooming. 2-3 ft., \$2.50; 3-4 ft., \$3.50.

EUONYMUS

Japonica (Evergreen Burning Bush). Bushy evergreen shrub to about 5 feet high. Very glossy deep green leaves. Can be sheared into formal shapes or allowed to develop naturally for screening. Does well in cool, shady places. 2-3 ft., \$2.50.

FIRETHORN. See Pyracantha.

HEATHERS

Erica Carnea (Red Winter Flowering). Rosy red flowers in late winter and early spring. Slow growing. 6 to 8 in., \$1.00; 8-10 in., \$1.50.

Erica Mediterranean (Mediterranean Hybrid). Dwarf, compact, the most popular of all winter blooming heathers, with a profusion of lavender pink blossoms all winter. 6-8 in., 75c; 8-10 in., \$1.25.

Erica Stricta (Corsican Heath). To 3 ft. Lavender blossoms in mid-summer; dense, bright green foliage. 6-8 in., \$1.00; 8-10 in., \$1.50.

Stricta Media (Mediterranean maxima). An upright heather with lavender blossoms, with long stems of lovely flowers. Blossoms through spring season. 10-12 in., \$1.50; 12-15 in., \$2.00.

Scotch (Calluna vulgares) (Alba). White. 8-10 in., \$1.00; 12-15 in., \$1.50.

Scotch (Calluna vulgares aurea). Lavender. One of the best of the summer blooming heathers. Flowers from mid-summer to autumn. Attractive delicate foliage of bright gold in summer, shading to bronze in winter. 8-10 in., \$1.00.

Springwood (White). Winterblooming, dwarf, compact growth with dark green foliage. 6-8 in., \$1.00; 8-10 in., \$1.50.

PFITZER'S JUNIPER

HOLLY

French Bluestem. Dark green, glossy leaves, with a purple-brown stem, with deep red berries. Very hardy, a good commercial type. 24-30 in., \$4.00; 4-5 ft., \$8.50; 7-8 ft. sheared specimens, \$15.00.

Silver Queen (Variegated). Evergreen, with variegated leaves of dark green and silvery white, 10-12 in., \$1.25; 12-15 in., \$1.75.

JUNIPER

Chandleri (Chandler's Juniper). Silver blue foliage, very compact, pyramidal growth. Medium slow growing habit, excellent for use on outside corners or to either side of entrance. 24-30 in., \$4.00; 3-4 ft., \$5.50.

Contorta. An exceptionally fine semi-prostrate juniper. Dark green foliage covers branches year around, assuming a reddish bronze coloring during winter months. Excellent for terrace and mass plantings. Very hardy. Rare. 15-18 in., \$2.50.

Dundee. Slender, pyramidal growth, blue-green color, soft foliage of semi-upright growth, assuming a colorful purple bronze in winter months. 2-3 ft., \$4.50; 3-4 ft., \$5.50.

Femina (J. chinensis femina) (sylvestris) (Reeve's Juniper). A loosely branched tree, tips slightly nodding. Foliage bright green, completely covering branches, in fact so dense that the branches appear to be moss laden. Offers a contrast between juvenile and adult foliage which seems to have a touch of all varieties on the one shrub. Really different. Makes an excellent specimen tree or for use in planting on side of house or in inside corner. 18-24 in., \$3.50; 2-3 ft., \$4.50; 3-4 ft., \$6.50.

Irish (Com. Hibernica). Rich, blue-green foliage, fairly rapid growth, lends itself well to shearing for small pyramids or narrow columns. 3-4 ft., \$3.00; 4-5 ft., \$4.00; 5-6 ft., \$5.00.

Irish (Hibernica fastigata). A slower growing form of the regular Irish Juniper, naturally columnar. 2-3 ft., \$3.00; 3-4 ft., \$5.00.

Meyer's (Squamata meyeri). Foliage a striking blend of grey and silvery blue turning to rich violet shades in winter. Irregular type of growth makes it especially desirable for specimen plants in rock garden, or in choice spots in foundation planting. 15-18 in., \$2.50; 2-3 ft., \$4.75.

Pfitzer (chinensis pfitzeriana). Attractive gray-green foliage, low, semi-sprawling. Very attractive and hardy. One of the best for mass plantings on terraces or on foundation. 15-18 in., \$2.50; 18-24 in., \$3.50; 24-30 in., \$4.50.

Savin (J. sabina). A semi-spreading, many branched conifer growing to a height of 4 feet; very hardy and with very good green coloring the year around. One of the best of the standard varieties, and an ever popular choice for use under windows, around porches, or any place where a vase-type shrub is desired. 18-24 in., \$2.50; 2-3 ft., \$3.50; 3-4 ft., \$5.50.

Tamariscifolia (Tamarix Savin Juniper). A bright, bluish-green throughout the year, very symmetrical and compact in form and growth, seldom gets over 15 to 18 inches high, spreading slowly; can be used to advantage in rockeries, on terraces, in front of window wells, or along either side of an entrance. 12-15 in., \$2.00; 24-30 in., \$4.50.

Variegated (Juniper chinensis procumbens alba-variegata) (White Variegated). A very hardy form of low growing juniper, foliage rather coarse and prickly, bright green all season, with white splashes of color intermingling with the rich green of the older foliage. Well suited for rockery use, or for intermingling with other prostrate types to enliven terrace plantings. 12-15 in., \$3.00; 15-18 in., \$4.00.

KALMIA

Latifolia (Mountain Laurel). Small leaves, of dark green, very slow growing. Fragrant pink blossoms in spring and early summer. An attractive plant for use in rockery or in foundation plantings with rhododendrons or camellias. 12-15 in., \$2.50; 15-18 in., \$3.50.

LAUREL

English. A broadleaved evergreen especially adapted for conditions on the Pacific Coast, with large, glossy, dark green leaves. Very useful in hedge plants, in shrubbery screens, or as individual specimens. Responds to trimming very well and can be sheared to any shape. 10-12 in. (hedging size), \$40.00 per 100; 15-18 in., 75c each; 18-24 in., \$1.50. (Small sizes moved bare root.) Larger specimens, 24-30 in., B & B, \$2.75.

LAURESTINUS

Viburnum tinus. A lovely, bushy, evergreen shrub with clusters of small pink flowers from fall until spring; rich deep green foliage; excellent for mass plantings and for hedges. Does well in both sun and shade. 12-15 in., \$1.50; 18-24 in., \$2.50.

MAGNOLIA GRANDIFLORA

Evergreen Magnolia. Very large, shining evergreen leaves, growing to a large tree, with large white fragrant flowers. 2-3 ft., \$4.50; 3-4 ft., \$6.00.

(NOTE: See Deciduous Flowering shrubs for other Magnolias.)

MEXICAN ORANGE

Choisya Ternata. Dwarf, bushy shrub; fragrant, light green foliage, with a waxy sheen. Large clusters of fragrant white flowers in spring. Flowers similar to orange blossoms in appearance and fragrance. 12-15 in., \$1.50; 15-18 in., \$2.50; 18-24 in., \$3.50.

PERNETTYA

Mucronata. An attractive evergreen shrub from Chile. Masses of brightly colored berries most of the year. Small deep green leaves the year around. Berries range from white and pink to red. 15-18 in., \$2.00; 18-24 in., \$3.00.

PHOTINIA

Serrulata (Chinese). An attractive broadleaved evergreen shrub with brilliant red foliage in spring, turning to dark, shiny, glossy green. Leaves very large, with serrated edge. Has large clusters of white flowers and later black berries. 15-18 in., \$2.50.

PINE

Mugho. A popular dwarf mountain pine, making a rugged, compact shrub 3 to 4 feet high. Sends up several stems from the base. Deep green foliage. Very slow growing, suitable for rockery use, or for specimen plantings. 12-15 in., \$2.50; 24-30 in., \$6.00.

PRIVET

California. Rapid growing, leaves nearly oval in shape and bright green. One of the most popular of all hedge plants. 15-18 in., 25c; 18-24 in., 50c. (Moved bare root.)

English Privet. One of the most popular of all hedge plants. Can be used for background or for evergreen screen. 18-24 in., \$22.50 per 100; 30-36 in., \$26.50 per 100. (Usual spacing 1 ft. apart in row.)

Golden Variegated (Golden California). Foliage golden yellow flecked with green. Similar in growth to regular California. Popular for hedging and for specimen planting around foundation or in evergreen screen. 18-24 in., \$1.25; 2-3 ft., \$1.75.

Lodense. A very dwarf type of privet especially desirable for low hedges (to 3 ft.). 10-12 in., 40c; 15-18 in., 60c.

DAPHNE ODORA (See page 15)

PYRACANTHA (Firethorn)

Lalandi (Orange Berried). Pointed dark green leaves, white flowers in clusters in spring followed by clusters of berries. Very desirable for training against walls, fireplaces, or for trimmed specimen plants. 12-15 in., \$1.50; 18-24 in., \$2.50.

Crenata (Red Berried). Large glossy green leaves, spreading; very useful for plantings in corners, in large masses or on slopes. Very hardy. 12-15 in., \$1.50; 18-24 in., \$2.50.

PYRACANTHA (Firethorn)

RETINOSPORA

(A misnomer, generally applied to different forms of the Chamaecyparis and Thuja.)

RHODODENDRONS

Dwarf (R. Racemosum). A vigorous small shrub of upright growth with clusters of bright pink flowers in April and May. Evergreen. Very useful in rockery plantings. 5 yr., \$3.50 each.

Grafted. The best named varieties, with large blossoms in spring or early summer. Colors ranging from white, pink, and red to lavender, purple and semi two-toned. Tagged as to name and color. 12-15 in., \$5.00; 15-18 in., \$6.50; 18-24 in., \$8.00; 24-30 in., \$9.50.

Hybrids. Selected seedlings, from large flowered types, not tagged as to color, but well suited for mass plantings. 15-18 in., \$5.00; 18-24 in., \$6.00.

SKIMMIA

Japonica. A dwarf evergreen, with sturdy green leaves, producing showy scarlet berries. Does well in shade. 12-15 in., \$2.50; 15-18 in., \$3.25.

SNOWBALL (Evergreen)

Burkwoodi (Evergreen) (Snowball). A very fine hybrid form, with excellent waxy green foliage, has large clusters of waxy, fragrant flowers, larger and prettier than any other. A very choice plant. 15-18 in., \$2.50; 18-24 in., \$3.50.

(For Deciduous Forms of Snowball see page 8.)

SPRUCE

Colorado Blue (picea pungens). An excellent specimen tree for lawns. Horizontal branches with closely set steel blue needles. Very symmetrical and beautiful. Hardy. 12-15 in., \$2.50; 15-18 in., \$3.00; 18-24 in., \$3.50.

Koster Blue (picea pungens kosteri). An especially selected strain of Blue Spruce, with larger needles of a deeper, richer blue. Very slow growing. 15-18 in., \$4.50.

THUJA (Arborvitae)

Berckman's Golden (Berckmani, orientalis aurea nana). Very dwarf, golden globular, unexcelled for foundation planting, or for edging. Extremely slow grower, very symmetrical. 8-10 in., \$2.00; 10-12 in., \$2.50; 12-15 in., \$3.00; 15-18 in., \$3.50; 18-24 in., \$4.50.

Dolabrata (False arborvitae, Elk Horn). An oriental type with heavy light green foliage. An extremely interesting type, growing into a pyramidal form. Quite hardy. Makes excellent specimen tree. 12-15 in., \$1.50; 15-18 in., \$2.25.

Globosa (Globe Arborvitae). Dwarf, dark green, globe-shaped, slow growing and very hardy. 12-15 in., \$1.50; 18-24 in., \$3.50.

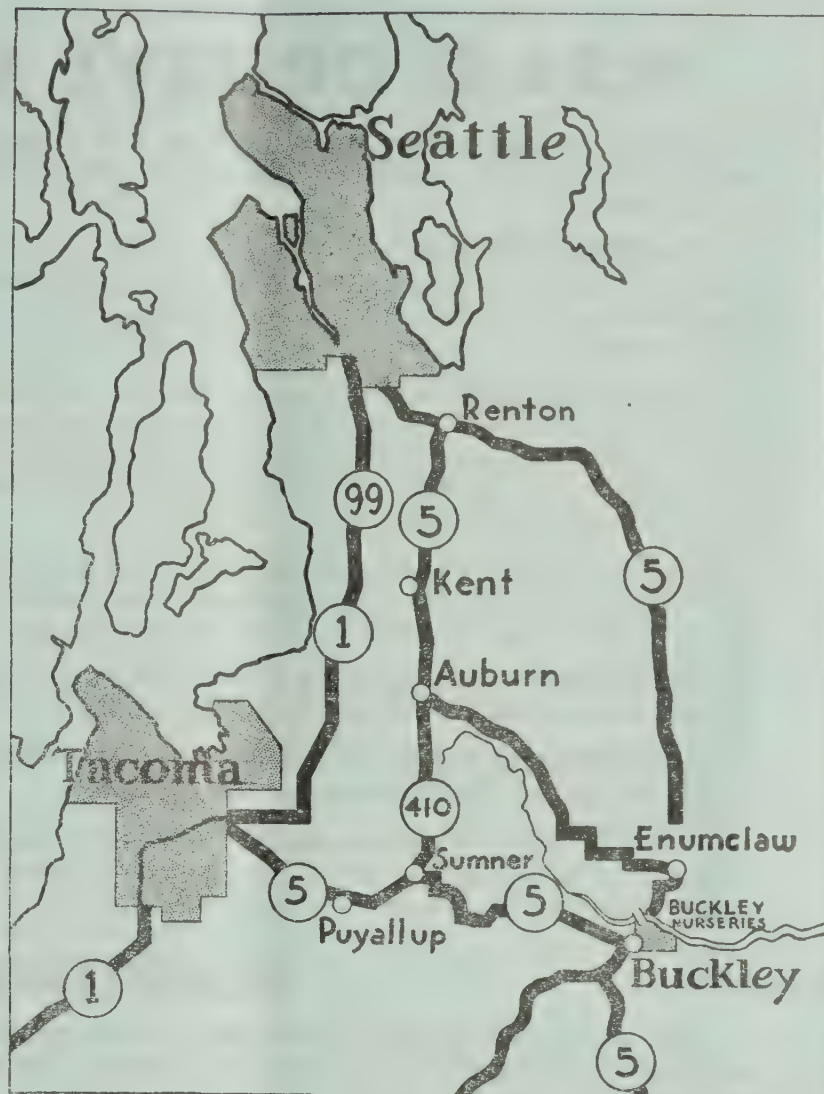

Obtusa (Ret. obtusa). See Chamaecyparis.

PLANT "GROWING TREES"

**NOW! IT IS NEVER TOO
LATE TO PLANT
FRUIT TREES!**

**AS A SPECIAL CUSTOMER SERVICE
WE STOCK POPULAR VARIETIES OF
FRUIT TREES IN SPECIAL CONTAIN-
ERS WHICH ALLOW THE TREES TO
BE PLANTED ANY TIME!**

**EACH TREE IS CAREFULLY SE-
LECTED FOR SPECIMEN SHAPE AND
IS PLANTED IN TOP SOIL AND KEPT
WELL FERTILIZED AND WATERED.
IT IS GROWING ALL THE TIME! YOU
DON'T LOSE ANY TIME IN GETTING
YOUR ORCHARD STARTED!**

We are located at the White River Bridge, 1/4 mile from the city limits of Buckley, Washington, on the Buckley-Enumclaw Highway, and extend a hearty invitation to the public to visit us.

If you are planning on adding to your garden this next year and will not be ready to plant during normal dormant season, book your order now for shipment at whatever time you will be ready, or reserve the stock you wish and we will hold it for you until you can call for it.

VISIT OUR NURSERY AND SELECT THE "GROWING TREES" YOU WANT FOR YOUR PLANTING. TAKE THEM WITH YOU OR HAVE THEM SHIPPED TO WHATEVER ADDRESS YOU WISH.

"GROWING TREES" are ready for shipment any time after May 1st, each year, until November 1st.

"GROWING TREES" are all two-year specimen stock, and are priced at \$4.50 each (f.o.b. nursery) or \$6.50 each prepaid to any point in Western Washington. Due to bulk and weight of containers of top soil, "GROWING TREES" can be shipped by truck only.

Write for list of "GROWING TREES" available for this next season.

GUARANTEE

We guarantee all of our nursery stock to grow and will replace free of charge within one year all fruit trees. On all other stock replacement will be made within one year at half-price. A 25-cent charge will be made to cover packing and shipping charges of each item replaced when shipment is made to the customer. In all instances extent of liability shall be determined by the nursery.

Manager

PLEASE OBSERVE WHEN ORDERING

NOTE: All price lists issued prior to this catalog are hereby cancelled. All prices quoted in this catalog are subject to change without notice. All orders are accepted subject to stock being available at time of delivery.

PLANTING SEASON—We commence shipment of stock as soon as it is sufficiently dormant to move safely. (Generally around 1st of December). All orders are filled in rotation according to date received. Plantings may be made until mid-March depending on weather. All orders are shipped in ample time for safe planting.

TRANSPORTATION—We pay the mailing or express charges on all deciduous stock listed herein to all points in Western Washington, provided the amount of order is \$1.00 or over.

Orders for less than \$1.00 will not be accepted for shipment. Where shipment is made by Auto Freight we prepay charges to freight terminal in Tacoma or Seattle, whichever is closest to destination, all auto freight charges beyond that point are collect.

TERMS—CASH—Send postoffice or express money order, bank draft or check. NO ORDERS WILL BE SHIPPED C.O.D. All orders must be paid in advance of shipment. 10% deposit (\$1.00 minimum) is sufficient to hold stock for order. However, balance must be paid before shipment is made.

SALES TAX—All purchasers whose orders are being shipped to Washington points will please add to their remittance the Washington Sales Tax of 3%.

PACKING—No charge is made for packing on retail orders of dormant nursery stock to any point in the United States. Packing on evergreens at cost.

GUARANTEE—We guarantee all the stock we sell to be true-to-name, nevertheless, it is understood and agreed that should any stock prove untrue to name the nursery shall not at any time be liable for any sum greater than the amount received.

PLANTING CHART

This convenient planting chart gives the appropriate planting distances at which various fruit trees and vines should be set. It also shows the number of trees at various distances that can be planted per acre.

Number of Trees per Acre			Suitable Distance for Planting	
No. Feet Apart	Square Method	Triangle Method		No. Feet Each Way
12 x 12	302	349	Apples	25 to 35
13 x 13	257	295	Pears	18 to 25
14 x 14	222	255	Sweet Cherries	25 to 35
15 x 15	193	222	Sour Cherries	20 to 25
16 x 16	170	190	Plums	18 to 25
17 x 17	150	172	Prunes	18 to 25
18 x 18	134	158	Peaches	18 to 25
19 x 19	120	138	Almonds	18 to 28
20 x 20	108	125	Quince	12 to 18
22 x 22	90	104	Nectarines	16 to 20
24 x 24	76	88	English Walnuts	40 to 60
25 x 25	69	80	Filberts	20 to 25
27 x 27	60	69	These distances will vary according to the type of soil and locality. For garden or home orchard, trees can be a little closer than for commercial orchards where cultivating is essential.	
30 x 30	43	55		
33 x 33	40	46		
35 x 35	35	40		
36 x 36	33	38		
40 x 40	27	31		

Kind of Vine or Plant	Proper Spacing	No. per Acre	Kind of Vine or Plant	Proper Spacing	No. per Acre
Grape Vines	8 x 8 ft.	680	Evergreen Blackberries ...	16 x 8 ft.	390

ARBORVITAE, THUJA PYRAMIDALIS

Pyramidalis (T. Occidentalis Pyramidalis). Dark green foliage, columnar, formal habit, dense and compact. One of the most desirable shrubs for corner plantings or for accenting lines of a dwelling. Naturally well-shaped, does not require pruning except for height when desired height has been attained. 2-3 ft., \$2.50; 3-4 ft., \$3.50; 4-5 ft., \$5.00; 5-6 ft., \$7.50.

YEWS (Taxus)

English (T. Baccata). Upright growing with deep green foliage. Stands shearing very well and makes exceptionally well shaped hedges or specimen plants. 18-24 in., \$3.50; 2-3 ft., \$5.00.

Irish (T. Hibernica). Vertical, upright, dark green in color with brilliant red berries often appearing in mid-winter, and early spring. Very slow growing, makes a perfect column. One of the finest of evergreens. 12-15 in., \$1.50; 15-18 in., \$2.50; 18-24 in., \$3.50; 24-30 in., \$4.50; 3-4 ft., \$7.50.

Irish (T. Hibernica Aurea). The golden variation of the regular Irish Yew. An exceedingly showy evergreen of same habit of growth. Same price as green Irish Yew.

Vase Yew (Japanese) (Taxus cuspidata). Grows in vase shape. Dark green, needle foliage, fan shape, exceptionally desirable under windows or for foundation planting. 18-24 in., \$3.75; 24-30 in., \$4.50.

AZALEA ALTAACLARENSE (See page 13)

FRUIT TREES

PEACHES

Alexander. The earliest of all for Western Washington. Sweet, good flavor, greenish white flesh. Ripens first part of July.

Red Haven. New. Highly colored, red skin, flesh yellow, freestone. Ripens month earlier than Elberta. Limited quantity.

Crawford's Early. Freestone. A large, magnificent red-striped yellow peach of good quality. One of the most popular varieties. August.

Early Elberta. Freestone. Large, yellow with red cheek; flesh firm, yellow, juicy. Of fine quality. Early September.

Golden Jubilee. Fairly new variety developed at New Jersey Experimental Station. Large, oval, golden yellow. Good fresh or canned. Early September.

Hale's Early. Freestone. Medium size. Flesh white, very fine flavor, juicy. Late August.

Hale Haven. A new Hale strain variety which is growing very popular. Exceptionally large, good color, yellow flesh, freestone. Ripens just after Veteran.

J. H. Hale. The always popular Hale. Large, freestone, golden yellow. Ripens September.

Rainier. NEW. Exceptionally well suited for commercial planting. Large size, rich flavor, yellow flesh.

Rochester. Orange yellow with deep red blush. Very juicy, highly flavored. Productive, semi-free-stone. Middle of August.

Strawberry Peach. An old-fashioned favorite, newly being repopularized. Flesh white, sweet, juicy. Medium to large. Ripens mid-August.

Vedette. One of the earliest yellow-meated peaches. Delicious table variety. Ripens late July to early August.

Veteran Peach. A freestone peach, well adapted to Western Washington. Flesh deep golden, sweet, good flavor. Excellent for planting with Pacific Gold. Ripens two weeks later than Pacific Gold. Good canner. Recommended by Western Washington agricultural experts. Fine commercial variety.

Gold Mine Nectarine. The nectarine is really a smooth-skinned peach. This new variety has proven highly successful wherever planted. Large, juicy, luscious fruit.

APRICOTS

Apricots are a beautiful and delicious fruit, a close relative of the plum and peach, combining the qualities of both. The fruit ripens after the early cherries, and just before plums and peaches.

Perfection Apricot. The newest and best apricot for general commercial or home orchard planting. Very hardy, heavy bearing. The largest in size. Excellent flavor.

Tilton. Medium to large, firm flesh, sweet and juicy. Trees hardy and a thrifty grower. One of the most popular.

Wenatchee Moorpark. One of the largest in size; orange yellow skin with numerous russet dots; flesh firm, yellow, sweet, juicy. Ripens first to middle of August.

PACIFIC GOLD

Tree Ripened Peaches Taste Best!

You can never really know how good peaches taste until you pick them fully ripened from your own trees. Fresh, ripe, home-grown peaches are a delicious fruit that may be grown at little expense. They are easy to grow, quick to come into bearing, and very productive. Cultural directions enclosed with each order.

Pacific Gold Peaches are in bearing now in practically all parts of Western Washington. At least one of your neighbors or acquaintances will enjoy this fine fruit from his own tree this year. Place your order NOW and add your name to our large list of satisfied customers.

PACIFIC GOLD. Is one of the finest peaches on the market and has been developed especially to suit the needs and growing conditions in Western Washington.

They are very hardy and regularly bear big crops of fruit. Two-year-old trees are often loaded, and in our orchard three- and four-year trees have produced three to five boxes of fine peaches.

The Pacific Gold is at this time the leading commercial variety for Western Washington. Available records show more Western Washington acreage planted to Pacific Gold than any other sort. Because of its attractive coloring and early ripening it is a consistent money maker for sale at roadside stands or town markets. Plant Pacific Gold for Gold from your ground.

CHERRIES

Cherry trees are a real asset to any home! Big, sweet, luscious cherries—fresh from the tree—will be appreciated by the whole family. Makes an excellent shade or lawn tree.

SWEET CHERRIES

Bing. One of the best and most delicious cherries. The color is deep, dark red—nearly black; meat firm, sweet, and exceedingly well flavored. Almost unequalled in size, attractiveness and quality. Fruit hangs on the tree well and ripens uniformly so the crop can be taken at one picking. Deservedly one of the most popular. Requires pollenization.

Lambert. A very large, heart-shaped cherry with firm flesh and rich, sweet flavor. An excellent shipper, taking first rank for commercial production. Is less subject to frost injury at blossom time than other sweet varieties. Requires pollenization.

Royal Anne. Large, light yellow with red cheek. Ranks among the best sweet cherries because of its large size, handsome appearance and high quality. Excellent for dessert, and the leading sweet canning variety. Requires pollenization.

Black Republican. An excellent pollenizing variety. Rich in flavor, with fine quality, firm flesh, good canner, excellent eating.

Black Tartarian. Medium to large, bright purplish black. Tender, juicy, very rich flavor. Productive, and ripens very early. Good pollinizer.

Deacon. A large black cherry, with firm flesh and rich flavor. To the merits of the fruits is added the advantage of being a good pollinizer.

Centennial. Large, yellow, firm-fleshed and excellent flavored. Good for canning or eating fresh, and a good pollinizer.

SOUR CHERRIES

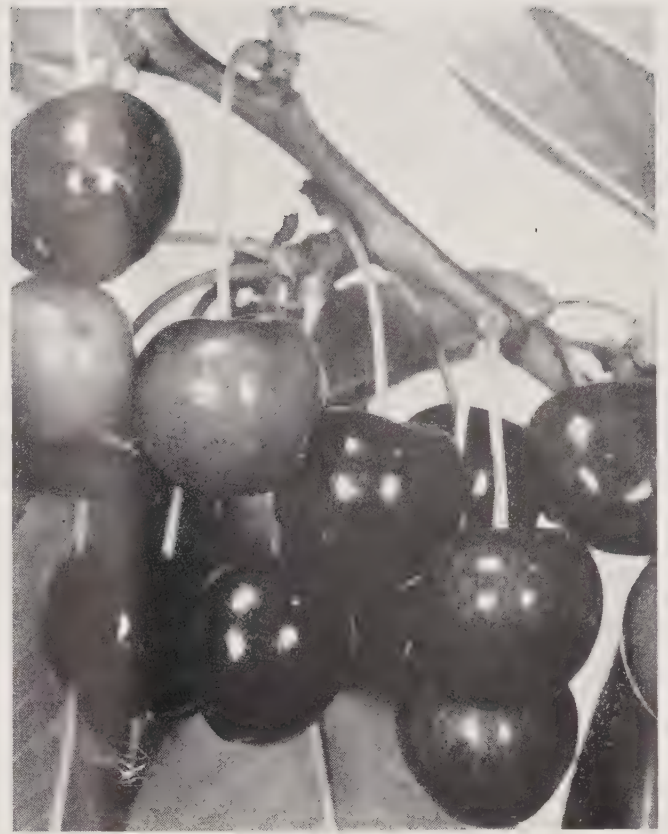

Early Richmond. Medium size, dark red, melting, juicy, sprightly acid flavor. This is unsurpassed for cooking purposes, and is exceedingly productive. Ripens June.

English Morello. Medium to large, blackish red, rich, acid, juicy and good. Very productive, an excellent canner. Late July to mid-August.

Late Duke. Large, dark red, juicy and rich. An old, excellent variety, very productive. Mid-July.

May Duke. Similar to Late Duke, but ripening a month earlier.

Montmorency. The most widely planted sour cherry, by reason of its early and regular bearing habits, and fine flavored fruit. Scarlet red color, round plump fruit hangs in clusters, making picking easy.

BING CHERRY

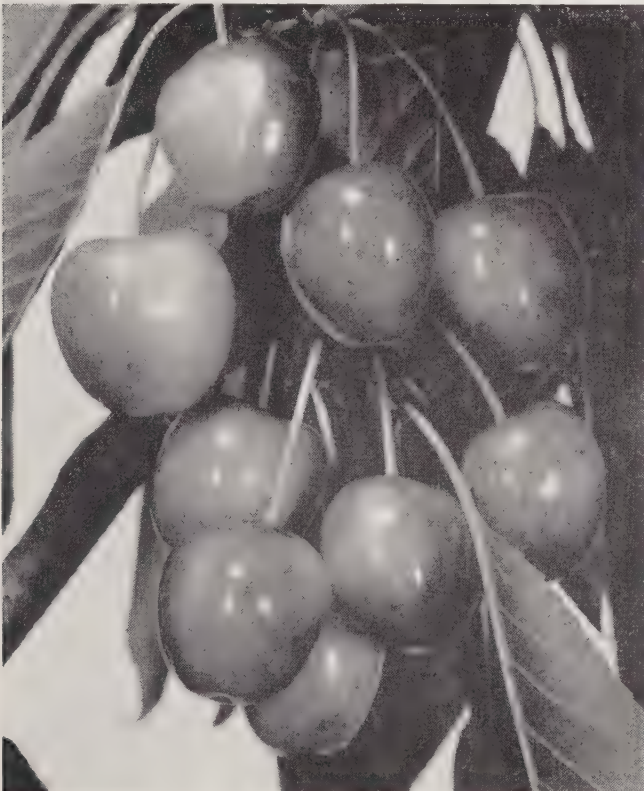

QUINCES

The quince is attracting a good deal of attention as a market fruit. The tree is hardy and compact in growth, requires little space. Very productive, large crops, and comes into bearing early. Self-pollenizing. The fruit is much sought for canning, jellies and preserves. Imparts a delicious flavor to other fruits when used in proportion of one part quince to four parts other fruits. The dwarf, slow-growing habit of the tree makes it an excellent lawn tree.

Champion. Very large, handsome fruit. Greenish yellow skin, with yellow flesh that cooks up well.

Orange. Large, round, somewhat irregular with small, short neck. Fine, golden-yellow flesh of excellent flavor.

Pineapple. One of the best for home use. Fruit large, highly flavored. Greenish yellow to deep yellow in color. We especially recommend this variety for Western Washington.

ROYAL ANNE CHERRY

QUINCE

RED DELICIOUS AND WINESAP APPLES

APPLES

SUMMER APPLES

Yellow Transparent. An excellent apple for eating or cooking. No apple in its season approaches it. A clear, light yellow color. Ripens over a period of three to four weeks.

FALL APPLES

Gravenstein. An old favorite. Large, fine quality. Ripens in August.

Red Gravenstein. An improved type of the old favorite. Bright red, ripens shortly after old Gravenstein. Good eating or cooking, juicy, spicy flavor. Well adapted to Western Washington.

Wagner. Medium size, deep red. Juicy, very good flavor.

Snow (Fameuse). Medium size, yellowish-green striped with red. Flesh white, fine-grained, crisp. Good eating or cooking.

King. Large, oblate, yellowish ground striped with red. Fragrant, spicy flavor and odor. Flesh crisp, tender, fine flavor. Cooking or eating.

WINTER APPLES

Winter Banana. Large, clear, waxy yellow with red blush. Good cooking and eating. Crisp, tart.

Grimes Golden. Medium to large, rich golden yellow. Crisp, fine flavor. A universal favorite. Good keeper.

McIntosh Red. Large, bright red stripes on white. Fine-grained, aromatic. Eating or cooking. Strong grower.

Rome Beauty. Large, yellow and bright red. Flesh yellowish, tender, juicy, sub-acid. Good bearer. Excellent for cooking. Keeps until March.

Northern Spy. A fine, large red-striped apple. Tender, mild, juicy. Strong growing trees. Keeps until June.

Stayman Winesap. Improved type of Winesap, larger and more prolific. Large, yellow splashed with red. Tart, crisp, fine for eating.

Red Delicious. A new strain, double-red improved Delicious. Retains its firm texture, juice and flavor much longer than ordinary Delicious, and is more adapted to Western Washington.

Jonathan. Red and yellow, juicy, rich flavor, tender flesh. Very productive. Fine eating. Good commercial variety.

Baldwin. Large, deep red. Tart, juicy, excellent cider apple. Fine for eating. Very good keeper.

Spitzenberg. Medium to large, deep red, spicy, crisp flavor. An old favorite. Good cooking and eating, fine keeper.

Yellow Newton Pippin. Medium to large, light yellow, excellent for both eating and cooking. One of the finest for keeping. Lasts until April.

CRABAPPLES

Crabapples are of value both for the beauty of the tree and the quality of the fruit. Delicious for cooking, preserving and making jellies or spiced fruits.

Hyslop. Medium size, yellow with shadings of crimson maroon. Flesh fine, firm, yellow, astringent. One of the most desirable sorts for culinary use.

Red Siberian. Small fruit, averaging an inch in diameter, borne in clusters. Bears young and abundantly. Deep red over-all color, sprightly flavor.

NEW!

Buckley Sweet Plum. A freestone, large, fine flavored, good for canning or eating. Yellow meat, reddish blue skin. Bears heavily. Each, 1-yr., \$2.00; 2-yr., \$3.00.

BARTLETT PEAR

Transcendent. Medium to large, brownish yellow with blush of bright red. Flesh firm and crisp, fine-grained, very juicy.

Whitney. Fruit large, yellow striped with red and covered with red on sunny side. Flesh yellowish, juicy, fine-grained. Flavor almost sweet, very rich.

PRUNES

Coates 1418, Date Prune. An improved type of French prune, larger than regular French. Fine for eating, canning or drying. Reddish purple, juicy, sweet.

Hungarian. Largest in size, beautiful bright red with lilac bloom. Good market variety, and ideal for home use. September.

Italian. Medium to large. Oval, dark purple with sweet, juicy, yellow flesh. A standard drying and shipping variety. Tree a strong grower and heavy bearer.

Silver Prune. Large, slightly ovate, pale yellow skin and flesh. Very sweet. A good late prune.

French (Petite d'Agen). Small to medium in size, very fine texture. Reddish purple, sweet and juicy. Good eating or canning.

Double X French. An improved French, large, sweet and of excellent quality. Good for fresh, drying or canning use.

Sugar. Early August. The earliest prune for shipping or canning use. Fruit medium to large, oval, dark purple. Flesh sweet and of good quality. Excellent pollinizer.

PEARS

The pear thrives over a wide range of soils and climatic conditions. The roots withstand heavy, wet soils better than most other fruits. Unlike other fruits, the pear develops better quality when ripened off the tree, and should be picked before it begins to soften. Plant trees from 20 to 25 feet apart.

SUMMER PEARS

Bartlett. Large size, golden yellow when ripe, with beautiful blush on sunny side. Buttery, very juicy and highly flavored. Tree a strong grower and bears early and abundantly. The most popular. Ripens late August, early September.

Clapp's Favorite. A large, fine pear, resembling the Bartlett, but without its musky flavor. Fine texture, without graininess. Pale lemon yellow with slight blush. Tree hardy and productive.

AUTUMN PEARS

Bosc Buerre Bosc—Fall Russet. One of the best fall pears. Splendid shipping and commercial variety. Long, slender shape, solid russet color. Flesh fine-grained and very flavorful. Good keeper.

Comice. A splendid commercial variety, of fine size, good appearance, with faint reddish blush on sunny side. Very juicy, sweet and aromatic. This variety should be more widely known and planted.

Seckel. Small, rich, yellowish brown. One of the best flavored pears known, fine for pickling or preserving. Ripens late September, early October.

Oriental Pear. Something different. A very ornamental type tree, with dark, shiny leaves and russet colored, globular fruit. Distinctive in flavor. Ripens late September to October.

Winter Varieties

Winter Nelis. Medium to large, skin yellowish green, dotted with russet. Flesh yellow-white, fine grained, exceptionally sweet and aromatic. December.

Winter Bartlett. This fine pear originated in Eugene, Oregon. Fruit large, closely resembling the famous Bartlett in shape and appearance, but ripening considerably later. One of the few pears of recent introduction having real merit.

Anjou (Buerre d'Anjou). A large, fine pear, buttery and melting. Sprightly flavor. Tree a fine grower and very productive. October to January.

VETERAN PEACH (See page 18)

PLUMS

PLUMS ARE EASY TO GROW AND BEAR EARLY

Duarte. Ripens August to September. Fruit heart-shaped, deep red all the way through. Very small pit. Delightful flavor.

Blue Damson. Ripens September. Enormously productive and a regular bearer. Fruit ripens over a long season. Delicious eaten fresh, incomparable for preserves and marmalades.

Burbank. The fruit is large, clear cherry red with a thin lilac bloom; flesh a deep yellow, very sweet. Begins to bear second year after planting.

Bradshaw. Ripens August, or mid-season. Very large, dark violet-red. Yellowish green flesh of pleasing flavor. Semi-freestone. Good quality. Tree a good grower and very productive. Blooms late, thus more likely to escape late frosts. Good market or home orchard variety.

Climax. Ripens early, mid-July to August. One of Burbank's finest introductions, fast growing in popularity for both home and commercial use. Fruit is large, pear-shaped, superbly rich in flavor and quality.

Columbia. Ripens late August. Large, dark purple. Almost round in shape, flesh yellow, juicy and sweet. A desirable home orchard fruit.

Peach. Ripens usually July and August. Early ripening, large size and handsome appearance make this highly popular. Round in shape, golden yellow flesh, juicy, sprightly flavor.

Satsuma. A fine large plum. The flesh is solid, purplish-crimson from pit to skin. Juicy, very fine quality. Pit very small, about size of cherry stone. Ripens in September.

Yellow Egg. Ripens end of August. A large, handsome yellow plum. Egg shaped, golden yellow covered with thin bloom. Firm, juicy, sweet. One of the best.

Reine Claude. Large, nearly round. Skin pale yellow marked with red; juicy, excellent, good bearer. Ripens first of September.

Beauty. The earliest red plum, an important commercial variety. Fruit medium to large, heart-shaped, crimson skin, yellow flesh, with an indescribably pleasing flavor. Trees very productive, self-pollenizing.

Santa Rosa. Large, purplish crimson skin, flesh yellow, mottled crimson. Excellent for eating or canning, and a good pollenizer. Mid-July.

PLUM, BRADSHAW

OUR FRUIT SPECIALTIES

Combination Fruit Trees

Now, these lovely, home orchard-in-a-tree specialties are the answer to questions about sufficient room for an assortment of fruit. They are like-wise a very practical, yet interesting novelty, highly ornamental with their different colored fruits creating a striking contrast. They bear heavily and consistently as each tree includes pollenizing varieties for best results.

All of the below listed combinations are three-year-old stock and will soon come into production.

COMBINATION APPLE TREES

3-way. Yellow Transparent, Red Gravenstein, 1 winter apple. Each \$4.00.

4-way. Yellow Transparent, Red Gravenstein. 2 winter apples. Each \$4.50.

5-way. Yellow Transparent, Red Gravenstein, King, 2 winter apples. Each \$5.00.

6-way. Yellow Transparent, Red Gravenstein, King, 3 winter apples. Each \$5.50.

NOTE: Combinations listed are suggestions only, we have many others although basically all are selected to have a group of early, fall, and winter apples. Send us a list of your preference and we will fill order as closely as possible.

COMBINATION PLUM

The combination plum offers more interesting contrasts in color as the fruit ripens than any other tree. Beautiful luscious, red, yellow, blue, and green plums all at once and all from the same tree.

3-way—\$4.00 each

4-way—\$4.50 each

5-way—\$5.00 each

6-way—\$5.50 each

All of the plums are selected to give an assortment of plums with different ripening seasons, and with a provision to include a pollinizer on each tree to insure heavy production.

COMBINATION CHERRIES

2-way. Bing and Lambert
Bing and Royal Anne
Bing and Pollenizer

\$4.00 each

3-way. Bing, Lambert and Pollenizer.
Bing, Lambert and Royal Anne
Bing, Royal Anne and Pollenizer

\$4.50 each

4-way. Bing, Lambert, Royal Anne and Pollenizer.
\$5.00 each

5-way (Very limited supply.) Bing, Royal Anne, Lambert, Pollenizer and Pie Cherry
\$6.00 each

COMBINATION PEAR TREES

Probably the most satisfactory pear tree is the combination. With its choice selection of the early pear, a fall pear and a winter pear it offers a full choice of fresh fruit in season.

2-way (Early and Winter). \$4.00 each

3-way (Early, Fall and Winter). \$4.50 each

4-way (Early, Fall, Late Fall and Winter). \$5.00 each

Our Fruit Tree Collections

The following special collections have been chosen to give a good selection of the finest varieties of fruit for the average home. All trees are No. 1 stock. Collections consist of varieties of our choice, and at these special prices no changes in varieties listed can be made. We reserve the right to substitute similar varieties of equal value in event of shortages.

FRUIT TREE COLLECTION No. F2

An assortment of 18 choice fruit trees which will provide an abundance of fruit for the home owner who is on a small acreage and wishes a complete family orchard.

Consisting of:

4 Apple Trees (Yellow Transparent, Gravenstein, King, Stayman Winesap).

2 Pear Trees (Bartlett and Anjou).

3 Cherry Trees (Royal Anne, Deacon and Pie Cherry).

1 Prune Tree (Italian).

1 Plum Tree (Satsuma or Duarte).

2 Peach Trees (Pacific Gold and Veteran).

1 Apricot Tree (Tilton or Moorpark).

1 Fig Tree (Lattarula).

2 Filberts (Barcelona and Du Chilly).

1 Walnut (Franquette).

(Above are our Choice of Varieties)

FILBERTS

The filbert is less particular as to location and soil than many other nut and fruit trees. It does well on any soil that is fertile, well-drained, retentive of moisture during summer, and which has sufficient depth. The territory in which the filbert can be grown is limited to the Northwest, and the market for the ripened nuts is unlimited. Planted 25 feet apart, each way, 70 trees are required to the acre.

Barcelona. A large, round nut that drops freely from its husk. The self-husking feature is a valuable one. Makes a large tree, and bears early. Proper pollenization is essential; Du Chilly and Daviana are good pollenizers for the Barcelona.

Du Chilly. A leading commercial variety, very popular in Western Washington. Very large, long nut of superior quality. In many markets the Du Chilly commands a premium price over other varieties. The trees do not grow as large as the Barcelona, but are excellent bearers. Daviana is recommended for a pollenizer.

Daviana. This is a handsome nut of the Du Chilly type, although not quite so large. The trees bear quite heavily, and are excellent pollenizers for both Du Chilly and Barcelona.

NOTE: In filbert planting, each tree should contact a pollenizer. In commercial planting, it is the practice to have every third tree of every third row a pollenizer. We will be glad to make a planting chart, showing proper location of pollenizers.

PRICES

	Each	Per 12	50 to 100
1-year, 2-3 ft.....	\$1.00	\$.85	\$.75
1-year, 3-4 ft.....	1.25	1.10	.95
2-year, 4-5 ft.....	1.50	1.25	1.00

3-yr., \$2.50; 4-yr., \$3.00.			

BUTTERNUT

A beautifully formed tree bearing a rough coated nut of most attractive flavor, well known to the Middle West. Does well in Pacific Coast area. A very attractive shade tree. 6-8 ft., \$2.50; 8-10 ft., \$3.00.

WALNUTS

English Walnut. These are prolific bearers on the Coast. Having a deep tap roots, they should be planted in deep soil. 4-6 ft., \$2.50; 6-8 ft., \$3.00.

Franquette. An English type walnut grafted on California Black root. An improved strain with large, oval nuts, big meats, splendid quality. We especially recommend this variety for Western Washington climatic conditions. 3-4 ft., \$2.50; 4-6 ft., \$3.00; 6-8 ft., \$4.25.

California Black. A rapid grower, making a very beautiful shade tree. Nut medium size, with hard, smooth shell. Adapts itself easily to different climates. 4-6 ft., \$1.75; 6-8 ft., \$2.50.

CHESTNUTS

American Sweet. A handsome shade tree, bearing medium-sized nuts of superb flavor. Sweet.

Spanish. Valuable both for ornamental use and fruit. Produces larger fruit than the American, and quite similar in flavor.

Italian. Well-shaped tree, bearing medium-sized, sweet nuts of excellent flavor. 3-4 ft., \$1.50; 4-6 ft., \$2.00; 6-8 ft., \$3.00; 8-10 ft., \$4.00.

FIGS

DO YOU LIKE FIGS? NO?

Then you have never really tried to eat fresh, ripe figs, right from the tree. No other fruit has the universal appeal to the palate of man as the fig.

Brown Turkey. Brown. Large size, very good flavor. Bears young and heavily. Makes a fine shaped tree.

Lattarula. White. The Asiatic Honey Fig. Most widely used for eating fresh, making preserves, marmalades and candy. Very hardy and a regular bearer. Self-pollenizing.

Granata. Black. The Persian fig. Grown in Persia and Syria, but quite hardy in this locality. One of the largest in size, often measuring 7 inches in circumference. Not quite as hardy as white.

Neveralla. Purple. Similar to Granata in size and growing habits, but preferred by many who do not like black figs. Long, slender shape. Very sweet. Trees bear quite young.

FIG, BROWN TURKEY

CONCORD GRAPE

GRAPES

GRAPE PRICES

2-yr. No. 1, 50c each, per dozen, \$5.00.

Agawam. Large bunch, red berries, tender and juicy. Ripens early. Good bearer. Very good table grape.

Brighton. Flesh rich, sweet, and of the best quality; ripens early. Vigorous and productive in growth. Red.

Delaware. Bunch medium to small, compact. Berries small, light red, sugary and vinous. Excellent flavor.

Caco. Of exceptional merit. Wine-red berries, compact bunch, good sized fruit. Hardy and thrifty. August to September.

Campbell's Early. Handsome black berries with purple bloom. Rich, good keeper. Fine jelly type.

Concord. Good black variety, juicy and sweet. Reliable and productive. One of the most popular and adaptable varieties. The standard in many sections.

Worden. Seedling of the Concord, which it greatly resembles, but with larger berries. Slightly sweeter flavor, and ripens somewhat earlier.

Island Belle. Mid-August to September. Unequaled keeping qualities. Clusters and berries are large, glossy black with attractive blue bloom. Sweet and juicy. One of the best for culinary purposes.

Fredonia. Medium to large fruit and clusters. Very sweet. Good table grape, and fine for jelly making. Black.

Niagara. Berries medium to large. Skin thin, tough. Niagara holds the same position among white grapes as Concord among black. Good for arbors.

Portland. Medium to large, white berries. Good table variety. Strong, vigorous grower.

Sweetwater. Large, white berries. Very sweet and juicy. Delicious table grape.

GOLDEN MUSCAT GRAPE

One of the best of the European type grapes which will mature well under Western Washington conditions. Hardy, excellent bearer. Good wine or table grape.

2-year No. 1: Each, 75c; per doz. \$7.50.

PEARL OF CSABA

A new hardy grape from Hungary. Csaba is the earliest ripening grape for the Pacific Northwest. Exceptionally hardy, heavy bearer. It is a top quality wine grape, and an excellent table grape. Almost seedless, with a pronounced Muscat flavor, delicate and refreshing. Grapes are amber colored, round, of medium size, uniform in size and shape. Bunches are long, large and well filled. The vines are hardy, vigorous, sturdy growers, highly productive. Often come into production second year from planting. Each 75c; 3 for \$2.00; 12 for \$6.50.

CACO GRAPE

ASPARAGUS

Rustproof Washington Asparagus. Just the thing to round out the well-planned home garden. Well rooted, 2-year plants: 50c doz.; 25 for 85c; 50 for \$1.60; 100 for \$3.00.

RHUBARB

Not a luxury, but a necessity for a well-balanced garden. Fine for sauce or pies.

Mammoth Victoria or Strawberry. Each, 20c; per doz., \$2.00.

BLUEBERRIES

A comparatively new introduction of genuine merit. Will do well in majority of home gardens, and thrive in boggy or sub-irrigated plots. Full cultural instructions included with each order.

EARLY VARIETIES

Cabot. Berries large, good flavor.

Pioneer. Berries large, flavor fine. Excellent for pies, jams, and jellies.

MID-SEASON

Rancocas. Large berries, strong grower. One of the best commercial varieties.

Scannell. Large berries of excellent flavor. Good home variety.

Concord. Large berries of excellent, rich flavor.

Harding. Medium size berries, but of exceptional sweetness.

LATE VARIETIES

Rubel. Medium in size, a good flavor and heavy bearer. Good commercial type.

Grover. Attractive bush, berries large and delicious. Good culinary type.

Jersey. A very late variety, with large, fine-flavored berries.

CURRANTS

English Black Currant. An old favorite, returning to popularity. Unsurpassed for making jellies and jams. Plant and fruit has an attractive aroma of its own. None other can compare with flavor.

Fay's Prolific. Bright red, medium size berry, ripening in long bunches. Heavy bearer.

Perfection. Bright red, and larger than the Fay. Very productive. Rich, mild, sub-acid.

Cherry. The largest of all red currants, sometimes more than a half-inch in diameter. Very vigorous grower.

White Grape. Similar in bearing habits to the Perfection, but with white berries. Ideal for drying or for jelly making.

1-year: 30c each; \$3.00 doz.

2-year: 40c each; \$4.00 doz.

3-year: 50c each; \$5.00 doz.

STRAWBERRY, ROCKHILL (See page 26)

NEW! PROVEN! SUCCESSFUL!

Red Lake Currant. Originated at the Minnesota State Fruit Breeding Farm, and fast supplanting other varieties as commercial variety. Very productive, with long open bunches for speedy picking. Plants very vigorous and resistant to mildew. The new currant which will supplant Perfection for commercial planting. Each, 40c; per doz., \$4.00.

Special prices on large plantings.

BLUEBERRIES

CURRANTS

RASPBERRIES

Cuthbert. Very hardy, medium to large, firm and of excellent flavor. Good shipper. One of the leading main crop raspberries. Doz., \$1.25; per 50, \$4.50; per 100, \$8.00; per 1000, \$60.00.

New Washington. A new berry developed at the Western Washington Experimental Station. Plants quite resistant to winter freezing and mosaic. Berries large, red, good flavor. Doz., \$1.25; per 50, \$4.50; per 100, \$8.00; per 1000, \$60.00.

Cumberland (Black Cap). Berries large, firm, and of excellent flavor. One of the best and most popular of all black raspberries. Each, 20c; doz., \$2.00; per 100, \$12.50.

EVERBEARING RASPBERRY

Indian Summer. By far the best of the Everbearing Raspberries ever introduced. Large, sweet fruit, of excellent quality and continuous bearing. \$2.00 per 12; \$14.50 per 100.

BOYSENBERRY

The gigantic new blackberry with a real wild blackberry flavor. The largest and finest blackberry on the market for home or commercial use. The vines are exceptionally hardy, drought resistant, and make a strong, vigorous growth, with unbelievably heavy crops.

	Each	12	100
1-year (spring only)	\$.20	\$2.00	\$15.00
2-year	.30	3.00	20.00

GOOSEBERRIES

Oregon Champion. Berries medium to large, round, smooth, greenish-white with thin, transparent skin. Good quality, early ripening. Very heavy bearer. Bush vigorous and free from mildew.

1-year: 40c each; \$4.00 doz.

2-year: 50c each; \$5.00 doz.

3-year: 75c each; \$7.50 doz.

English Gooseberry. Fruit very large, up to an inch in diameter, round, very juicy and exceptionally fine flavored. Vigorous grower, very productive, one of the best. Commands a high price on the market. Each, \$1.00.

LOGANBERRY

Fruit of the same size and general shapes as a large blackberry. Large clusters of dark purplish red fruit with a pleasant vinous flavor. Excellent for table use or canning. Each, 30c; per doz., \$3.00.

OLYMPIC BERRY

A marvelous new berry of the highest quality, with an exquisite flavor. Should be planted in every home garden. This berry originated on Vashon Island, and has proven both hardy and very productive. Dewberry type fruit, must be trellised like Loganberry. Each, 50c; per doz., \$5.00; per 50, 30c each; 100 to 500, 25c each.

YOUNGBERRY

A superbly flavored recent introduction—a cross between the Logan and Dewberries. Heavy cropper. Each, 30c; per doz., \$3.00.

THORNLESS BERRIES

Thornless Boysenberry. Fruit identical with the old standard thorny type, but with all the advantage of easy access in picking. No thorns to interfere. Each, 40c; per doz., \$4.00.

Thornless Loganberry. One of the best of the thornless types. Fruit fully as large as thorny type, and bears heavily. Is successful in commercial plantings as the thorny type with the advantage of speeding up picking because of lack of thorns to interfere with pickers. Each, 40c; per doz., \$4.00; per 100, \$25.00.

Thornless Blackberry (Evergreen). Very popular with commercial planters. Good sized fruit, productive, and the fact that it is thornless really helps the grower in taking care of his berries and in getting pickers to harvest the crop. Everybody likes this one. Each, 40c; per doz., \$4.00; per 100, \$25.00; per 1000, 17½c each.

INDIAN SUMMER RASPBERRY

STRAWBERRIES

Marshall (also known as Oregon Plum, New Oregon, Banner). Large, fine flavor, good canner and excellent eating fresh. Good shipper. Vine makes vigorous growth.

Improved Marshall. A standard proven variety, large berries, fine quality; a good canner and shipper. Important commercial variety.

Brightmore. A new annual strawberry highly recommended for shipping and canning. Very productive. Uniform berries, good color. Frost resistant.

Prices for above: Doz., 50c; per 25, 85c; per 50, \$1.60; per 100, \$3.00; per 500, \$13.50; per 1000, \$25.00.

Coleman's President. The new heavy cropping berry in demand by the canneries and processing plants for preserving and quick freezing. Stays solid after thawing, firm and well colored. Rich, sweet flavor. Doz., 60c; per 25, \$1.00; per 50, \$1.85; per 100, \$3.50; per 1000, \$32.50.

EVERBEARING STRAWBERRIES

Progressive. Smaller than Mastodon but of better quality and finer flavor.

Mastodon. Large berried, popular everbearing type. Good color and flavor.

Mount Rainier (Minnesota No. 1166). This new introduction shows promise of replacing many of the older varieties. Strong growing plants, with dark green foliage, large, firm dark red fruits. Sweet.

Streamliner. A new everbearing that has gained great popularity. Dark red fruit, sweet, almost round in shape. Medium to large fruit, holding size well through productive season.

New Gem. Large, good flavor, firm; one of the outstanding commercial everbearing strawberries for Western Washington. Per doz., 75c; per 25, \$1.25; per 50, \$2.25; per 100, \$4.25; per 500, \$20.00; per 1000, \$35.00.

Rockhill Everbearing. A new, runnerless type berry of exceptionally fine flavor, large size and quality. Heavy bearer. Per doz., \$1.50; per 50, \$5.50; per 100, \$10.00. 2-yr. No. 1, \$1.00; 3 for \$2.75; 6 for \$5.25; 12 for \$10.00

CASCADE BERRY

A new berry much in demand. Exceptionally large berries of real merit. Heavy yielder, with the real wild blackberry flavor and color. Very hardy, vigorous and more healthy than any other true wild blackberry type. A must for every home garden. Each, 40c; 12 for \$4.00.

DWARF FRUIT TREES

When fully grown the maximum height of the dwarf tree is not over 10 to 12 feet, and by proper pruning they can be kept even lower. This makes it easy to spray and care for them, and simplifies picking of the fruit.

Every garden, large or small, has space for one or more of these heavy-producing dwarf trees. A practical novelty. Ornamental and productive.

DWARF APPLE—14 Years Old

APPLES

SUMMER APPLES

Yellow Transparent. Clear, light yellow, the first apple to ripen each summer. The one that made green apple pie famous.

FALL APPLES

Gravenstein. An old favorite, large, fine quality, unexcelled for eating or cooking. Ripens mid-August.

King David. Late fall, large, yellowish flesh striped with red, fragrant spicy flavor. Flesh crisp, tender, good for eating and cooking.

WINTER APPLES

McIntosh Red. Large, bright red stripes on white. Fine-grained, aromatic. Eating or cooking. Good keeper.

Red Delicious. The same double-red Delicious which has met with such favorable reception as the ideal eating apple. Large, fine flavored.

Stayman Winesap. One of the best for eating and cooking. Large yellow splashed with red. Tart, crisp. Keeps well.

Yellow Delicious. A large apple of excellent quality. Bears young, and very heavily. Crisp white, rich flavored flesh, golden skin. Good eating and cooking, fine keeper.

CHERRIES

SWEET CHERRIES

Bing. One of the best of the dark cherries. Large size.

Lambert. Very large, heart-shaped, dark red. Ripens after Bing.

Royal Anne. Large, light yellow with red cheeks. One of the most popular of all sweet cherries.

SOUR CHERRIES

Ostheimer Weischel. Large, dark red. Sour cherry type, although sweet enough for eating fresh. Excellent for pies, jellies and preserves.

Montmorency. The favorite sour cherry, early, regular bearing, fine flavored fruit. Scarlet red color.

DWARF PEAR TREE—14 Years Old

PEARS

Bartlett. This is the same fine fruit as borne on the ever popular standard Bartlett. Ripens late summer to early fall, large golden yellow fruit, with a spicy, aromatic flavor.

Buerr d'Anjou. Similar to standard sort. One of the best winter pears. Keeps to January.

Clapp's Darling. This is probably a re-naming of Clapp's Favorite, to which it is nearly identical. Large, fine-grained, early summer pear. Golden yellow touched with red blush. Aromatic and juicy.

Comice. A good commercial variety of fine size, good appearance. At its best at Christmas.

Tongern. Large, golden brown, dotted with soft red. A truly beautiful pear with flavor to match its appearance. Ripens in early fall.

PLUMS

Burbank. Fruit is large, clear cherry red with a thin lilac bloom; flesh a deep yellow, very sweet. Very productive, bears young.

Italian Prune. Medium to large fruit, oval, dark purple with sweet, juicy yellow flesh. An old variety, here to stay. Produces heavily.

Yellow Egg. Exceptionally large fruit, egg shaped, golden yellow covered with thin bloom. Firm, juicy sweet. One of the best.

ESPALIER FRUIT TREES

We have a very limited number of Espalier trained dwarf trees available. 1 tier, \$6.00; 2 tier, \$8.00; 3 tier, \$10.00. (1 long tier, extra heavy, \$8.00; 2 long tier, extra heavy, \$10.00.) Varieties on application.

HINRICH GAEDE

2-YEAR No. 1 BUSH ROSES

Each \$1.00; 3 for \$2.75; 6 for \$5.25; 12 for \$10.00

- Autumn.** Medium sized buds, color burnt orange, streaked with red; strong grower, healthy foliage, free bloomer.
- Caledonia.** One of the better white roses. Long large buds. Double flowers.
- Catalonia.** One of the most brilliantly colored new varieties. Full double blooms of orange-vermilion, gold reverse.
- Charles K. Douglas.** Scarlet-crimson, free bloomer. Strong, fragrant, bushy.
- Christopher Stone.** A really sensational red rose. Perfect form, scarlet, intensely fragrant. Dark green, disease-resistant foliage.
- Condesa de Sastago.** This Spanish novelty is the first double rose to have the vivid colors of the brilliant specie rose, Austrian Copper. The bud is like molten gold, striped with flame.
- Dainty Bess.** Delicate, true pink, slender buds, opening into large, lily type single blooms of a lighter pink, with the petals edged with crimson.
- Dame Edith Helen.** Very fragrant, double pink. Perfectly formed. Free bloomer, fragrant.
- Dorothy Page Roberts.** Free blooming, coppery pink. Long, slim buds opening to fully double flowers.
- Duchess of Athol.** Long, pointed orange buds open to rose and gold double blooms.
- Duquesa de Penaranda.** Long, pointed buds of apricot, orange and dark pink. Continuous bloomer.
- Edith Nellie Perkins.** Long, pointed buds open to large full flowers of two-toned, orange-buff inside and copper-pink outside petals.
- E. G. Hill.** A long-time favorite, with great, massive blooms of deep, velvety crimson. Very fragrant.
- Etoile de Hollande.** The finest double, dark red rose for all general purposes.
- Feu Joseph Looymans.** Long, pointed buds of glowing apricot and old gold. Continuous bloomer.
- Golden Emblem.** Beautiful, large, double blooms of rich yellow, sometimes stained with red on outer petals.
- Hadley.** Large, well-formed flowers of rich crimson. Fully double. Very fragrant.
- Hinrich Gaede.** Long, nasturtium red buds, opening to very double, bright orange blooms with good shading.
- Hoosier Beauty.** Very double bright carmine with distinctive zinnia shape. Crimson inner petals have very dark shadings.
- Imperial Potentate.** Large flowers of deep rose-pink. Vigorous grower, profuse bloomer.
- Irish Fireflame.** Extremely long slender buds opening to single blooms of deep orange splashed with crimson.
- Joanna Hill.** Very double bloom with Indian Yellow center surrounded by gold-buff outer petals.
- Kaiserin Augusta Viktoria.** The best double, pure white bedding rose. Full blossoms, shapely buds.
- Kill. Brilliant.** Vivid pink, double satiny sheen. An outstanding rose.
- K. of K.** Bright scarlet, semi-double blossoms. Very showy, free bloomer.
- Lady Hillingdon.** Long, slender stems bear pointed dark yellow buds, opening to large, golden double blooms.
- Lady Margaret Stewart.** Copper orange buds, opening to bright golden yellow flowers. A favorite cut rose.
- Los Angeles.** Double flowers are rich flame pink, shading to apricot and yellow.
- Lulu.** Long, dainty buds of coral apricot. Semi-single.
- Mabel Morse.** Vivid, golden-yellow double blooms. Fragrant, very free bloomer.
- Miss Rowena Thom.** Numerous, immense bright pink petals hinged in vivid yellow. Free bloomer, vigorous grower.
- Mme. Caroline Testout.** Double, satiny pink with apricot shadings. Beautiful buds, opening to large, loose flowers.
- Mme. Cecil Brunner.** One of the showiest of the baby roses, profuse bloomer, delicate pink blossoms, ideal for boutonnieres or corsages.
- Mme. Edouard Herriot.** The original bright orange-pink rose. Excellent for bedding or cutting.
- Mme. Jules Bouche.** The finest white cutting rose. Long, well-shaped buds, open to fully double, finely-shaped flowers. Free bloomer.
- Mrs. E. P. Thom.** Fine long buds open into perfectly shaped flowers of rich lemon-yellow.
- Mrs. Pierre S. DuPont.** Reddish-gold buds open into beautiful double yellow flowers. Free bloomer.

Mrs. Sam McGredy. Large, double blooms of orange-salmon with a suffusion of gold. Vigorous, healthy.

McGredy's Yellow. One of the always popular McGredy's roses of rich sulphur yellow. Free bloomer.

McGredy's Ivory. Long bud with greenish markings, opening to ivory-white, perfectly shaped, double blooms.

McGredy's Scarlet. Large flowers of brilliant scarlet with orange base. Upper portions of petals lightly washed crimson.

Padre. A strong, upright grower, with beautifully shaped buds and blooms of rich copper-scarlet.

President Herbert Hoover. Maroon, orange, and gold. Beautifully pointed buds, large fragrant flowers borne on long, slender stems. Ideal cut rose.

Red Hoover. Similar to Pres. Hoover, but with more intense red coloring. Not subject to fading.

Red Talisman. More beautiful even than regular Talisman, with the red coloring of the inner petals intensified.

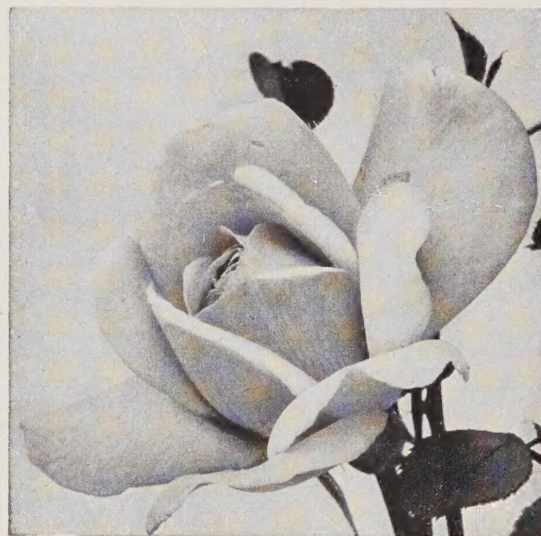

Sensation. All the name implies. Truly a sensation of riotous color. Vivid scarlet.

Shot Silk. Cherry cerise, shot with yellow. Very fragrant. Profuse bloomer.

Sister Therese. Perfectly formed golden yellow buds, opening to full, fragrant flowers. Sensational.

Southport. Long, pointed, rich scarlet buds, opening to full, fragrant flowers that resist fading.

Talisman. Fragrant bloom of glowing golden yellow, stained with copper-red and orange-rose inside petals. Free bloomer.

LOS ANGELES

CLIMBING ROSES

\$1.25 each; 6 for \$6.00.

- Cl. Pres. Herbert Hoover.** The same as the bush rose in blooming qualities and color. A profuse bloomer.
- Cl. Los Angeles.** Quantities of double, flame pink flowers, shading to apricot and yellow.
- Cl. Talisman.** Retains all the qualities of the ever-popular bush type Talisman.
- Cl. Mrs. E. P. Thom.** An unusually beautiful climber, covered with rich, sulphur-yellow blooms.
- Cl. Mme. Edouard Herriot.** A free-blooming rose of rich, coral-red, shading to orange. Free blooming.
- Cl. Paul's Scarlet.** One of the most popular of all climbers. Large, well-shaped flowers of rich scarlet. Blooms all summer.
- Cl. Marechal Neil.** A very beautiful rose with well-shaped, rich yellow buds. Free bloomer. Very fragrant.
- Cl. Mme. Butterfly.** Long, slender buds of a delicate pink touched with apricot. Hardy grower, free bloomer.
- Cl. Hoosier Beauty.** Fragrant, glowing crimson with darker shadings on inner petals.
- Cl. Cecile Brunner.** One of the strongest growing baby roses. Profuse, delicate pink blossoms.

PATENTED ROSES

(Priced as Marked)

Charlotte Armstrong (Pat. No. 455). The long buds are a bright shade of carmine which open to cerise in hot weather and to spectrum-red in cool weather. Double, high-centered fragrant blooms are supported on long, strong vigorous stems with deep green, leathery foliage that is highly resistant to mildew. Each, \$1.50.

Eclipse (Pat. No. 172). Long streamlined bud of rich golden yellow. One of the finest newer yellow roses. A vigorous, prolific bloomer and tall grower with dark green, disease-resistant foliage. An excellent cut flower with long stems. Mildly fragrant but continuously in bloom. Excellent for boutonniers. Each, \$1.35.

Fred Edmunds (Pat. No. 731). One of the newer sorts. Symmetrical buds of burnt-orange open to glorious 25-petaled blooms of vivid glowing coppery orange which slowly changes to apricot. A spreading plant with glistening olive-green foliage. Each, \$1.50.

Heart's Desire (Pat. No. 501). Small, slender buds of deep red opening to a loose semi-double flower of velvety red which does not fade. True rich old-time rose fragrance. Each, \$1.50.

Lowell Thomas (Pat. No. 595). Very double high-centered flowers of a lasting canary yellow. Vigorous, compact bush of upright habit and leathery foliage. Each, \$1.50.

Mme. Henri Guillot (Pat. No. 337). Pointed buds of warm raspberry pink expanding into big exhibition flowers. Glossy foliage. Each, \$1.50.

Peace (Pat. No. 591). Yellow buds edged in pink slowly opening to glorious five-inch blooms of alabaster white. Clean holly-like foliage; flowers produced in succession throughout the season. Each, \$2.00.

Pinocchio (Pat. No. 484). Floribunda. Rich salmon flushed with gold changing to soft clear pink as blooms develop. Exotic, fruity fragrance, everblooming, disease resistant. Each, \$1.25.

PINOCCHIO

Ruth Alexander. The beautiful, prize winning, patented climber. A glorious orange-copper color, semi-double, with perfectly shaped, long, slender buds. One of the most beautiful of the new roses. Each, \$2.00.

Saturnia (Pat. No. 349). Flowers brilliant cardinal-red, reverse salmon-yellow and copper. Awarded Gold Medal given by Governor of Rome for best new Italian rose. Each, \$1.50.

Shangri-La (Pat. No. 665). One of the newest, very fragrant, long shapely, uniform silvery pink buds, high centered blossom very full (35 petals) and lasting. Sturdy stems, vigorous growth, profuse with its flowers. Each, \$1.50.

TREE ROSES

These are the same fine roses we offer in the bush varieties grafted on standards 36 to 42 inches high where they show to maximum advantage. They make a highly ornamental addition to any yard. Ideal as a centerpiece for a bed of bush roses, or as a line of color to edge a lawn. Each \$4.00; 6 for \$20.00.

Varieties available:

Christopher Stone	Margaret McGredy	P. S. Dupont
Condesa de Sastago	Betty Uprichard	Pink Radiance
Edith Nellie Perkins	McGredy's Scarlet	Picture
E. G. Hill	McGredy's Ivory	Pres. Hoover
Etoile de Hollande	Mrs. Sam McGredy	Red Radiance
Hinrich Gaede	Mme. Jules Bouche	Talisman

Note: Because of the scarcity of the above, please list an acceptable substitute when ordering, or indicate that a substitute of our choice will be acceptable.
